Bryan, OH 43506-1051

Re: **151-11943-00031**  
Revocation of FESOP 151-8190- 00031

Dear Mr. Adams:

On January 24, 2000, Ingersoll-Rand Fluid Products notified the Office of Air Management (OAM) that all permitted surface coating operations for metal and cylinder products, located at 1105 Williams Street, Angola, Indiana 46703, have been removed from the source, thus eliminating the need for the operating permit. Supporting documents have been provided to OAM that equipment related to air emissions have been removed.

Effective immediately, the operating permit FESOP 151-8190-00031, issued on October 21, 1997 is hereby revoked.

Any construction or modification that would result to potential to emit greater than the exemption levels, as specified in 326 IAC 2-1.1-3 (Exemptions) shall be subject to New Source Review (NSR) and must be approved by the OAM before such construction or modification may occur.

If you have any questions regarding this revocation, please contact Ms. Iryn Calilung of my staff at 317/233-5692 or [icalilun@dem.state.in.us](mailto:icalilun@dem.state.in.us)

Sincerely,

Paul Dubenetzky, Chief  
Permits Branch  
Office of Air Management
