Re: Interim Significant Source Modification Petition
I-157-12478-00006

Dear Brian Ramey:

On October 3, 2000, the Office of Air Management (OAM) received an interim significant source modification petition from Eli Lilly and Company - Tippecanoe Laboratories, 1650 Lilly Road in Lafayette, Indiana for the addition of general Tank TK 40-11 and Charge Tank TK 53-10.

Public notice of the interim significant source modification petition was published on October 3, 2000. The public comment period ended on October 17, 2000. Since there are no comments received during the public comment period, pursuant to 326 IAC 2-13-1(i), the interim significant source modification petition is in effect on October 20, 2000 and expires on the effective date of the final significant source modification permit. The interim significant source modification petition may be revoked after this effective date upon a written finding by the Indiana Department of Environmental Management (IDEM) that any of the reasons for denial in 326 IAC 2-13-1(h) exist or if the final significant source modification permit is denied. The IDEM has reviewed this interim significant source modification petition and has not found any such reason. The facilities specified in the interim significant source modification petition may not operate until the final significant source modification permit is issued by OAM.

The interim significant source modification petition is federally enforceable. Detailed construction and operation conditions will be specified in the final significant source modification permit 157-12478-00006.

If you have any questions regarding this interim significant source modification petition, please contact Donald R. Poole of my staff at 317-232-8327, or at 1-800-451-6027 (ask for extension 2-8327).

Sincerely,

Paul Dubenetzky, Chief
Permits Branch
Office of Air Management
