Re: Interim Minor Source Modification Approval  
**I-097-012605-00072**

Dear Mr./Ms:

On August 11, 2000, the Indianapolis Environmental Resources Management Division (ERMD) received an Interim Minor Source Modification petition from Eli Lilly and Company (Lilly Technological Center), located at 1555 S. Harding Street, Indianapolis, Indiana. Based on the data and information submitted in the petition and the provisions in 326 IAC 2-13-1, this interim minor source modification petition is hereby approved for: installation of new equipment and modification of existing equipment in the B130 complex (pharmaceuticals production).

Detailed conditions will be specified in the final minor source modification **097-12605-00072**.

The equipment in this modification will be subject to the existing source MACT standard and will be required to comply with the provisions and reporting requirements under the Pharmaceutical MACT, as specified in 40 CFR Part 63, Subpart GGG, by the compliance date established by the Subpart GGG - September 21, 2001. Until that date (or such later compliance date that may be established by the U.S. EPA) the provisions of the MACT standard for Pharmaceuticals Production do not apply to this modification.

This interim minor source modification expires on the effective date of the final minor source modification. This interim minor source modification may be revoked after its effective date upon a written finding by the ERMD that any of the reasons for denial in 326 IAC 2-13-1(h) exist or if the final minor source modification is denied. The facilities subject to this approval may not operate until the final minor source modification is issued by ERMD.

Sincerely,

Mona A. Salem  
Chief Operating Officer  
Department of Public Works  
City of Indianapolis
