Re: **027-14487**
Revocation of **FESOP 027-7578-03270**

Dear Mr. Mabrey:

The letter from Rogers Group, Inc., received on July 27, 2001, requesting the revocation of FESOP 027-7578-03270, issued on July 1, 1997, has been reviewed. Rogers Group, Inc. has requested that the FESOP associated with the stationary asphalt plant (027-7578-03270) be revoked to allow the relocation and operation of a much larger portable asphalt plant (permit #055-7575-05023, issued on August 4, 1997) at the site of the stationary asphalt plant.

Pursuant to 326 IAC 2-1.1-9, any permit to construct or operate or any permit revision approval granted by the Commissioner may be revoked if there are changes in regulatory requirements that mandate either a temporary or permanent reduction of discharge of contaminants.

Since the Permittee can only operate portable asphalt plant 055-7575-05023 at the site of stationary asphalt plant 027-7578-03270 if the stationary asphalt plant FESOP is revoked and operation of the plant ceases, existing FESOP 027-7578-03270, issued on July 1, 1997, is hereby revoked.

If there are any questions about this revocation, please contact Scott Fulton at (317) 233-5691 or call (800) 451-6027 and ask for extension 3-5691.

Sincerely,

Paul Dubenetzky, Chief
Permits Branch
Office of Air Quality
