Re: Interim Significant Source Modification Petition
I-099-14499-00042

Dear Raymond Darmer:

On June 14, 2001, the Office of Air Quality (OAQ) received an interim significant source modification petition from Johns Manville Industries, Inc. located at 1215 West Dewey Street in Bremen, Indiana for construction of a new hogger and the replacement of blowing agents.

Public notice of the interim significant source modification petition was published on June 18, 2001. The public comment period ended on July 2, 2001. Since there are no comments received during the public comment period, pursuant to 326 IAC 2-13-1(i), the interim significant source modification petition is in effect on July 5, 2001 and expires on the effective date of the final significant source modification permit. The interim significant source modification petition may be revoked after this effective date upon a written finding by the Indiana Department of Environmental Management (IDEM) that any of the reasons for denial in 326 IAC 2-13-1(h) exist or if the final significant source modification permit is denied. The IDEM has reviewed this interim significant source modification petition and has not found any such reason. The facilities specified in the interim significant source modification petition may not operate until the final significant source modification permit is issued by OAQ.

The interim significant source modification petition is federally enforceable. Detailed construction and operation conditions will be specified in the final significant source modification permit 099-14499-00042.

If you have any questions regarding this interim significant source modification petition, please contact Donald Poole of my staff at 317-232-8327, or at 1-800-451-6027 (ask for extension 2-8327).

Sincerely,

Original signed by

Paul Dubenetzky, Chief
Permits Branch
Office of Air Quality
