Indianapolis, Indiana 46241

Re: Source Specific Operation Status
S 097-14799-00283

Dear Ms. Sheehan:

Your application for Source Specific Operation Status was received on August 17, 2001 and has been reviewed. Based on the data submitted and the provisions in 326 IAC 2, it has been determined that your emission source, a stationary auxiliary equipment source to run an Air Route Traffic Control Center (ARTCC) located at 1850 South Sigsbee Street, Indianapolis, Indiana 46241, has met the criteria required to obtain a Source Specific Operating Agreement. All terms and conditions in such registrations and permits are no longer in effect.

Pursuant to IC 4-21.5-3-5(a) and (b), approval of this Source Specific Operating Agreement shall not be effective until fifteen (15) days from the date of this letter.

The facilities and processes of this source are hereby granted the Source Specific Operating Agreement provided that the following requirements of 326 IAC 2-9 are satisfied:

Section A: External Combustion Operation: [326 IAC 2-9-13]

1. The visible emissions from the external combustion unit shall not exceed twenty percent (20%) opacity in twenty-four (24) consecutive readings in a six (6) minute period. The opacity shall be determined using 40 CFR 60, Appendix A, Method 9.
2. The fuel usage for the units listed in this Source Specific Operating Agreement (SSOA) shall be limited as follows:
 - (a) less than one thousand five hundred sixty-two million cubic feet (1562 MMcf) of natural gas, based on a straight twelve (12) month total, and
 - (b) less than one hundred eighty-seven (187) kilogallons of #1 or #2 distillate oil, or any combination of #1 or #2 oil, per year, based on a straight twelve (12) month total.

Section B: Internal Combustion Operation: [326 IAC 2-9-14]

1. The fuel usage for the units listed in this Source Specific Operating Agreement (SSOA) shall be limited to less than three hundred seventy-six and seventy-two hundredths (376.72) kilogallons of diesel fuel per year, based on a straight twelve (12) month total.
2. The source shall keep the following records from the external combustion unit:

- (a) the hours operated for each internal combustion unit approved under this Source Specific Operating Agreement (SSOA),
- (b) records of the annual fuel usage for each internal combustion unit approved under this SSOA, and
- (c) records of all routine maintenance conducted on the internal combustion units approved under this SSOA.

These records shall be kept for a minimum period of five (5) years, and made available upon request of the Office of Air Quality (OAQ).

Section C: General Requirements: [326 IAC 2-9-1]

1. The source shall provide an annual notice to the commissioner, stating that the source is in operation, and certifying that its operations are in compliance with the requirements of this Source Specific Operating Agreement. The above annual notice shall be submitted to:

**Compliance Data Section
Office of Air Quality
100 North Senate Avenue
P.O. Box 6015
Indianapolis, IN 46206-6015
and
Office of Environmental Services
Air Quality Management Section, Compliance Data Group
2700 South Belmont Avenue
Indianapolis, Indiana 46221-2097**

no later than January 30 of each year, with the annual notice being submitted in the format attached.

2. Any exceedance of any requirement contained in this operating agreement shall be reported, in writing, within one (1) week of its occurrence. Said report shall include information on the actions taken to correct the exceedance, including measures to reduce emissions, in order to comply with the established limits. If an exceedance is the result of a malfunction, then the provisions of 326 IAC 1-6 apply.
3. Pursuant to 326 IAC 2-9-1(i), the owner or operator is hereby notified that this operating agreement does not relieve the permittee of the responsibility to comply with the provisions of any applicable federal, state, or local rules, or any New Source Performance Standards (NSPS), 40 CFR Part 60, or National Emission Standards for Hazardous Air Pollutants (NESHAP), 40 CFR Part 61.

Any change or modification which will alter operations in such a way that it will no longer comply with the applicable restrictions and conditions of this operating agreement, must obtain the appropriate approval from the Office of Air Quality (OAQ) under 326 IAC 2-5.1, 326 IAC 2-5.5, 326 IAC 2-6.1, 326 IAC 2-2, 326 IAC 2-3, 326 IAC 2-7, and 326 IAC 2-8, before such change may occur.

Sincerely,

Original Signed by Pinkie Evans-Curry
