Re: 049-14806-00018
Administrative Amendment to
Part 70 Permit 049-9015-00018

Dear Mr. Kilmer:

Topp Industries, Inc. was issued a Part 70 operation permit on May 31, 2001 for a septic tank and sewer component manufacturing plant located at 420 Highway 25 North, Rochester, IN 46975. A letter requesting a revision was received on August 27, 2001. The request was made to notify OAQ of the addition of a plastic injection molding unit, heated by a natural gas burner rated at 1.0 million Btu per hour.

Pursuant to the provisions of 326 IAC 2-7-11, the addition of the unit is hereby acknowledged. No revision of the permit was necessary to accommodate the change, as the unit is classifiable as an insignificant activity which is not specifically regulated. All conditions of the permit shall remain unchanged and in effect. Please attach a copy of this letter to the front of the original permit.

This decision is subject to the Indiana Administrative Orders and Procedures Act - IC 4-21.5-3-5. If you have any questions on this matter, please contact Allen R. Davidson at (800) 451-6027, press 0 and ask for extension 3-5693, or dial (317) 233-5693.

Sincerely,

Original signed by
Paul Dubenetzky, Chief
Permits Branch
Office of Air Quality
