Re: Interim Significant Source Modification Petition

I-041-14996-00004

Dear Larry Hinkle:

On October 30, 2001, the Office of Air Quality (OAQ) received an interim significant source modification petition from Visteon Systems, LLC located at 4747 Western Avenue in Connersville, Indiana for construction of a thermal de-oiler.

Public notice of the interim significant source modification petition was published on November 2, 2001. The public comment period ended on November 16, 2001. Since there are no comments received during the public comment period, pursuant to 326 IAC 2-13-1(j), the interim significant source modification petition is in effect on November 19, 2001 and expires on the effective date of the final significant source modification permit. The interim significant source modification petition may be revoked after this effective date upon a written finding by the Indiana Department of Environmental Management (IDEM) that any of the reasons for denial in 326 IAC 2-13-1(h) exist or if the final significant source modification permit is denied. The IDEM has reviewed this interim significant source modification petition and has not found any such reason. The facilities specified in the interim significant source modification petition may not operate until the final significant source modification permit is issued by OAQ.

The interim significant source modification petition is federally enforceable. Detailed construction and operation conditions will be specified in the final significant source modification permit 041-14996-00004.

If you have any questions regarding this interim significant source modification petition, please contact Donald Poole of my staff at 317-232-8327, or at 1-800-451-6027 (ask for extension 2-8327).

Sincerely,

Original signed by Paul Dubenetzky
