Re: 049-15953-00029
Review Response
Part 70 049-9734-00029

Dear Mr. Pelletier:

County Line Landfill was issued a Part 70 Operating permit on March 10, 1999, for a stationary municipal solid waste landfill operation. A letter from County Line Landfill Partnership requesting changes to this permit was received on May 1, 2002, and additional information was submitted on May 30, 2002. The Permittee indicated that the 4,000 scfm, utility-type open flare skid identified as Unit 3 and exhausting through Stack ID No. 3 has been physically removed; however, County Line Landfill is requesting that Unit 3 remain as part of the Title V permit since Unit 3 or a similar open flare might be installed and used in the future. County Line Landfill will continue to comply with Quarterly Reporting and Recordkeeping as required in their permit. All conditions in the Part 70 permit will remain the same and in effect.

If you have any questions on this matter, please contact Janet Mobley, of my staff, at 317-232-8369 or 1-800-451-6027, press 0 and ask for extension 2-8369.

Sincerely,

Paul Dubenetzky, Chief
