Dear Mr. Norris:

Mirant Sugar Creek, LLC was issued a New Source Construction/PSD permit on May 9, 2001, for a natural gas merchant power plant. The Office of Air Quality was verbally notified concerning an error on the cover letter of the first notice only change issued on August 6, 2002. The letter referred to the initial permit as a Minor Source Operating Permit (MSOP) instead of New Source Construction/PSD. This letter corrects the reference.

Since the error did not affect the permit there is no need to amend the permit. All conditions of the permit shall remain unchanged and in effect.

If you have any questions on this matter, please contact Janet Mobley, of my staff, at 317-232-8369 or 1-800-451-6027, press 0 and ask for extension 2-8369.

Sincerely,

Paul Dubenetzky, Chief
