Re: 005-17485-00069
Revocation of Part 70 Permit
005-7068-00069

Dear Mr. Grewal:

On April 10, 2003, Cummins Engine Company, Inc., notified the Office of Air Quality (OAQ) that the Cummins Midrange Engine Technical Center facility located at 1532 E. 14th Street, Columbus, Indiana, had ceased operating as a diesel engine test center and removed the 20 diesel engine test cells, thus eliminating the need for an operating permit.

The Part 70 Operating Permit 005-7068-00069, issued on April 20, 2000, and subsequent Reopening (005-13152-00069) is hereby revoked. Pursuant to IC 4-21.5-3-5(a) and (b), this revocation letter is effective in eighteen (18) days from the date of this letter.

Any construction or modification that would result in potential to emit greater than the exemption levels, as specified in 326 IAC 2-1.1-3 (Exemptions) shall be subject to New Source Review (NSR) and must be approved by the OAQ before such construction or modification may occur.

If you have any questions regarding this revocation, please contact Janet Mobley of my staff at (800) 451-6027, press 0 and ask for extension 2-8369 or dial 317/232-8369.

Sincerely,

Original signed by Paul Dubenetzky
