Re: RR 035-18293  
Response to Request for Review the Letter  
Of October 22, 2003

Dear Trisha Swanke:

On October 27, 2003, the Office of Air Quality (OAQ) received a letter from your company. The letter concerned the operations for a source South Side Hoosier Pete located at 1401 East 29<sup>th</sup> Street in Muncie, Indiana. This source was issued a registration numbered 035-16677-00069. The letter requested that the requirement for the use of the catalytic oxidizer be eliminated.

After review of the registration letter, the OAQ has determined that the registration does mention the catalytic oxidizer control in the descriptive information for the operation. Additionally, the control is taken into account in the calculations. However, the registration contains no requirements that the catalytic oxidizer be used on a continuous basis at the source. Therefore, the use of the control can be eliminated at any time.

If you have any questions regarding this issue, please contact Donald Poole at 317-232-8327, or at 1-800-451-6027, Ext. 2-8327.

Sincerely,

Original signed by

Paul Dubenetzky, Chief  
Permits Branch  
Office of Air Quality
