Re: 151-18653-00034  
Re: Revocation of SSOA 151-11380-00034

Dear Mr. Kollee:

On October 31, 2003, Moore Wallace North America, Inc. filed an application (151-18281-00034) with the Office of Air Quality (OAQ) notifying the OAQ that the source is planning to add new equipment to the existing plant. Also, that due to the proposed new equipment to be added in this review Moore Wallace North America, Inc. will no longer be able to maintain the SSOA source status and will be converted to a FESOP source.

As a result, the SSOA, 151-11380-00034, issued on October 5, 1999 is hereby revoked. Pursuant to IC 4-21.5-3-3(a) and (b) this revocation letter is effective upon issuance of FESOP 151-18281-00034.

Any construction or modification which will alter operations must obtain the appropriate approval from the OAQ under 326 IAC 2-1.1, 326 IAC 2-2, 326 IAC 2-3, 326 IAC 2-7, 326 IAC 2-8, or 326 IAC 2-9 before such change may occur. This source may at any time apply for a state operating permit under 326 IAC 2-6.1, a Part 70 permit under 326 IAC 2-7, a FESOP under 326 IAC 2-8, or an operating agreement under 326 IAC 2-9, as applicable. [326 IAC 2-10-1(b)]

If you have any questions regarding this revocation, please contact Alic Bent at 973/575-2555, extension 3206.

Sincerely,

Original signed by Paul Dubenetzky
