Re: Response to Review Request No. 005-18787  
Permit status evaluation  
Plant ID: 005-00015

Dear Mr. Mark Slaton:

Cummins Engine Company, Inc. located at P.O. Box 3005, Columbus, Indiana 47202, submitted a review request on March 5, 2004. The letter was submitted to determine what level of permit would be required if Cummins Engine Company, Inc. Plant #1 located at 1000 5th Street were to install a new paint booth in this plant. Plant #1 is currently operating under a Title V Permit – T005-7433-00015.

Criteria pollutant threshold levels for exemptions are as follows:

**PM10** = <5tpy; **SO2** = <10 tpy; **NOx** = <10 tpy; **VOC** <10 tpy for sources not required to use air pollution control devices to comply with 328 IAC 8; **VOC** <5 tpy for sources required to use air pollution control devices to comply with 326 IAC 8; **CO** = < 25 tpy.

If a source can comply with exempt levels, the burden of proof lies with the source. If the source requires a definite decision to be made by the IDEM and a permit be issued, filing fees and any other permit fees shall be applicable according to the level of permit required.

In order to determine the permit level required for this equipment, Cummins Engine Company, Inc. will need to provide the appropriate IDEM permit application forms. These forms are available on line at [www.IN.gov/idem/air/permits/apps/index](http://www.IN.gov/idem/air/permits/apps/index).

Questions should be directed to Walter Habeeb, OAQ, 100 North Senate Avenue, P.O. Box 6015, Indianapolis, Indiana, 46206-6015, or call (800) 451-6027, press 0 and ask for Walter Habeeb or extension 2-8422, or dial (317) 232-8422.

Sincerely,
