Re: Administrative Amendment No. 097-18814-00265 to
FESOP Permit No. 097-12773-00265

Dear Mr. Morris:

Indy Railway Service Corporation was issued a Federally Enforceable State Operating Permit (FESOP) renewal on June 27, 2002, for operation of a welding, cleaning, and painting facility for railroad cars, located at 6111 W. Hanna Avenue, Indianapolis, IN 46241. An application was received on March 26, 2004, requesting that the emission statement condition be removed from the permit due to the revisions to 326 IAC 2-6 (Emission Reporting) which became effective on March 27, 2004. The Permittee is no longer required to submit an annual emission statement; therefore, the emission statement condition (C.15) is being removed from the permit.

Pursuant to the provisions of 326 IAC 2-8-10 the permit is hereby administratively amended to reflect the following changes. Conditions A.1 (General Information) has been modified in majority to reflect the June 15, 2004 designation for Marion County as nonattainment for the 8-hour ozone standard; and C.15 (Emission Statement) has been deleted. Furthermore, the table of contents (TOC) has been changed to reflect this deletion of the C.15 condition, and subsequent C conditions have been renumbered. All references to the OES Sections have been modified to reflect the appropriate names. Changes are **bolded** and deletions are ~~struck through~~ for emphasis as follows:
