Re: Notice-Only-Change, No. 097-19107-00513 to  
Registered Operation Status Permit No.  
R097-18185-00513

Dear Mr.Shields:

The Industrial Coating Services, Inc., Lexington Avenue Plant (source), was issued a Registration permit on November 26, 2003 for the operation of small metal auto parts manufacturing with manual and natural gas fired electro-deposition application processes, natural gas-fired process heaters, and pre-treatment of process water. An application was received on April 6, 2004 requesting that the emission statement condition be removed from the permit due to the revisions to 326 IAC 2-6 (Emission Reporting) which became effective on March 27, 2004. The Permittee is no longer required to submit an annual emission statement. Although the permittee is subject to 326 IAC 2-6 (Emission Reporting) as stated in the Technical Support Document (TSD) which was attached to the registration numbered R097-18185-00513, that statement was not included in the registration letter; therefore, no such statement can be deleted. In addition, a yearly notice or certification of compliance still needs to be submitted as stated on page 2 of this registration. Other changes have been made to the notification entities as stated below:

The following conditions shall be applicable:

- (d) Pursuant to 326 IAC 8-2-9 (Miscellaneous Metal Coating), any change or modification which would increase the actual VOC emissions to fifteen (15) pounds per day or more from the manual touchup booth shall obtain prior approval **from Indiana Department of Environmental Management (IDEM), Office of Air Quality (OAQ) and Indianapolis Office of Environmental Resources (OES).**

An authorized individual shall provide an annual notice to the **IDEM, OAQ,** and OES, that the source is in operation and in compliance with this registration pursuant to 326 IAC 2-5.5-4(a)(3). The annual notice shall be submitted to:

**Indiana Department of Environmental Management**  
~~Compliance Data Section~~  
Office of Air Quality  
Compliance Data Section  
100 North Senate Avenue  
P.O. Box 6015  
Indianapolis, Indiana 46206-6015

and

Office of Environmental Services  
**Air Compliance**  
~~Air Quality Management Services~~  
~~Compliance Data Group~~  
2700 South Belmont Avenue  
Indianapolis, Indiana 46221-2097

no later than March 1 of each year, with the annual notice being submitted in the format attached.

An application or notification shall be submitted in accordance with 326 IAC 2 to ~~the Office of Air Quality (OAQ) and Office of Environmental Services~~ **IDEM**, OAQ and OES, if the source proposes to construct new emission units, modify existing emission units, or otherwise modify the source.

All other conditions of the permit shall remain unchanged and in effect. In addition, the Technical Support Document (TSD) has not been altered. Please retain a copy of the original permit and this revision for your records.

This decision is subject to the Indiana Administrative Orders and Procedures Act - IC 4-21.5-3-5. If you have any questions on this matter, please contact Carmen Bugay of my staff via e-mail at [cbugay@indygov.org](mailto:cbugay@indygov.org) or by phone at (317) 327-2512.

Sincerely,

Re: Registered Operation Status,  
097-18185-00513

Dear Mr. Shields:

The application from Industrial Coating Services, Inc. - Lexington Avenue Plant, received on February 16, 1999, has been reviewed. Based on the data submitted and the provisions in 326 IAC 2-5.5, it has been determined that the following industrial coating plant for small metal auto parts manufacturing, located at 5345 East Lexington Avenue, Indianapolis, Indiana 46219, is classified as registered:

- (a) One (1) electro-deposition application process, constructed in 1989, using Ransburg automatic spray application system, with dry filters for particulate control, exhausting to stack IDs 22 and 23;
- (b) One (1) electro-deposition application process, constructed in 1992, using manual electrostatic air atomized touchup booth, with dry filters for particulate control, exhausting to stack IDs 12, 13 and 14;
- (c) One (1) natural gas-fired electro-deposition curing oven, constructed in 1989, rated at 2.5 million (MM) Btu per hour, exhausting to stack IDs 17 and 19;
- (d) Natural gas-fired space and process heaters with a combined heat input capacity of 2.57 million (MM)Btu per hour and exhausting to stack IDs 1, 2 ,3 , 4 and 5; and
- (e) Pre-treatment process using water based alkaline solutions for cleaning and surface preparation of small metal parts.

The following conditions shall be applicable:

- (a) Pursuant to 326 IAC 5-1-2 (Opacity Limitations), except as provided in 326 IAC 5-1-3 (Temporary Alternative Opacity Limitations), opacity shall meet the following, unless otherwise stated in this permit:
  - (1) Opacity shall not exceed an average of thirty percent (30%) any one (1) six (6) minute averaging period as determined in 326 IAC 5-1-4.
  - (2) Opacity shall not exceed sixty percent (60%) for more than a cumulative total of fifteen (15) minutes (sixty (60) readings) as measured according to 40 CFR 60, Appendix A, Method 9 or fifteen (15) one (1) minute nonoverlapping integrated averages for a continuous opacity monitor) in a six (6) hour period.

---

<sup>1</sup>Revised August 3, 2004, Notice-Only-Change, No.: NOC097-19107-00513.

- (b) Pursuant to 326 IAC 6-3 (Particulate Emission Limitations for Manufacturing Processes), particulate from the automatic spray booth and the manual touchup booth shall be controlled by dry particulate filters, and the Permittee shall operate the control device in accordance with manufacturer's specifications.

If overspray is visibly detected at the exhaust or accumulates on the ground, the Permittee shall inspect the control device and do either of the following no later than four (4) hours after such observation:

Repair control device so that no overspray is visibly detectable at the exhaust or accumulates on the ground.

Operate equipment so that no overspray is visibly detectable at the exhaust or accumulates on the ground.

If overspray is visibly detected, the Permittee shall maintain a record of the action taken as a result of the inspection, any repairs of the control device, or change in operations, so that overspray is not visibly detected at the exhaust or accumulates on the ground. These records must be maintained for five (5) years.

- (c) Pursuant to 326 IAC 8-2-9 (Miscellaneous Metal Coating Operations), the volatile organic compound (VOC) content of coating delivered to the applicator at the automatic spray booth shall be limited to 3.5 pounds of VOCs per gallon of coating less water, for forced warm air dried coatings.

Solvent sprayed from application equipment during cleanup or color changes shall be directed into containers. Such containers shall be closed as soon as such solvent spraying is complete, and the waste solvent shall be disposed of in such a manner that evaporation is minimized.

- (d) Pursuant to 326 IAC 8-2-9 (Miscellaneous Metal Coating), any change or modification which would increase the actual VOC emissions to fifteen (15) pounds per day or more from the manual touchup booth shall obtain prior approval from Indiana Department of Environmental Management (IDEM), Office of Air Quality (OAQ) and Indianapolis Office of Environmental Resources (OES).

An authorized individual shall provide an annual notice to IDEM, OAQ and OES, that the source is in operation and in compliance with this registration pursuant to 326 IAC 2-5.5-4(a)(3). The annual notice shall be submitted to:

**Indiana Department of Environmental Management  
Office of Air Quality  
Compliance Data Section  
100 North Senate Avenue  
P.O. Box 6015  
Indianapolis, IN 46206-6015**

**and**

**Office of Environmental Services  
Air Compliance  
2700 Belmont Avenue  
Indianapolis, Indiana 46221-2097**

no later than March 1 of each year, with the annual notice being submitted in the format attached.

An application or notification shall be submitted in accordance with 326 IAC 2 to the IDEM, OAQ and

Industrial Coating Services, Inc. - Lexington Avenue Plant  
Indianapolis, Indiana

## Registration Annual Notification

This form should be used to comply with the notification requirements under 326 IAC 2-5.5-4(a)(3)

<b>Company Name:</b>	Industrial Coating Services, Inc. - Lexington Avenue Plant
<b>Address:</b>	5345 East Lexington Avenue
<b>City:</b>	Indianapolis
<b>Authorized individual:</b>	Victor Shields, E.H & S Manager
<b>Phone #:</b>	(317) 322-7450
<b>Registration #:</b>	R097-18185-00513; NOC097-19107-00513

I hereby certify that Industrial Coating Services, Inc. - Lexington Avenue Plant is still in operation and is in compliance with the requirements of Registration 097-18185-00513.
