

May 26, 2004

Mr. Stephen R. Dawson
Applied Extrusion Technologies, Inc.
P.O. Box 5038
Terre Haute, Indiana 47805

Dear Mr. Dawson,

On May 19, 2004 this office received your request for a review of the proposed space heating in a new warehouse. Currently AET is operating under a Source Specific Operating Agreement (167-9183-00045, issued October 14, 2003).

Vigo County Air Pollution Control believes this addition would not be subject to any specific modification of your existing SSOA. There are 2 main reasons for this determination. First, the SSOA as issued covers external combustion units (which include space heaters) already with a set limitation on source wide fuel use. The space heaters would be included automatically in that existing limitation. Second, the space heaters are small enough they do not trigger any specific review.

If you have any further questions or comments contact me at (812) 462-3433, ext 14.

Sincerely,

Rob Harmon
Chief Engineer
Vigo County Air Pollution Control
