Re: AA-127-19337-00024
Fourth Administrative Amendment to
FESOP No. F127-5567-00024

Dear Mr. Virgil:

The Levy Company was issued a FESOP F127-5567-00024 on December 12, 1996 for operation of adjacent calumite and finishing plants. The Levy Company was issued a Significant Permit Revision SPR127-12042-00024 on July 17, 2000 in which one (1) crusher, one (1) screw conveyor, one (1) bucket elevator and two (2) screens were added to the calumite plant and the throughput limits were adjusted. However, this Significant Permit Revision erroneously stated the monthly throughput limit for the calumite plant as yearly throughput limit. Therefore, pursuant to the provisions of 326 IAC 2-7-11(a)(8), the permit is hereby amended to revise the descriptive information, which will not trigger any new applicable requirement or violate any permit terms.

Following changes have been incorporated in the FESOP.

1. Condition D.1.3 has been revised as follows:

D.1.3 Calumite Plant Throughput

The Calumite plant total throughput shall not exceed 28,229 tons per ~~12 consecutive month period, rolled~~ **based on a fixed monthly basis limit.**

2. The FESOP Quarterly Report has been revised as Follows:
