Re: Permit By Rule Status
131-19363-00010

Dear Thomas Madru:

The letter from Kokomo Grain Company, Inc. was received on July 15, 2004. Based on the data and information submitted and the provisions of 326 IAC 2-11-3 (Permit by Rule), Kokomo Grain Company, Inc. states that the grain handling facility, located at 1700 South 50 East, Winamac, Indiana 46996 satisfies the criteria to operate under the Permit by Rule provisions.

Pursuant to 326 IAC 2-11-3 (Grain Elevators), this source shall comply with the following conditions:

- a) This section applies to a grain elevator that receives and ships grain as follows:
 - 1) Grain receiving by truck or rail and grain shipping by truck or rail.
 - 2) Grain receiving by truck or rail and grain shipping by barge.
 - 3) Grain receiving by truck or rail and grain shipping by ship.
[326 IAC 2-11-3(a)]
- b) To limit allowable emissions or potential to emit as provided in section 1(c) of this rule [326 IAC 2-11-1(c)], annual total throughput limits shall be equal to or less than the following:
 - 1) For truck or rail grain receiving and truck or rail grain shipping, eleven million two hundred thousand (11, 200, 000) bushels.
 - 2) For truck or rail grain receiving and barge grain shipping, eight million (8, 000, 000) bushels.
 - 3) For truck or rail grain receiving and ship grain shipping, five million six hundred eighty thousand (5, 680, 000) bushels.
[326 IAC 2-11-3(b)]

Under 326 IAC 2-11-1(e), before a source subject to this rule modifies its facility or operations in such a way that it will no longer comply with this rule, it shall obtain the appropriate approval from the commissioner under 326 IAC 2-5.1, 326 IAC 2-6.1, 326 IAC 2-2, 326 IAC 2-3, 326 IAC 2-7, or 326 IAC 2-8.

Under 326 IAC 2-11-1(f), not later than thirty (30) days after receipt of a written request by the department or the U.S. EPA, the owner or operator of a source subject to this rule shall demonstrate that the source is in compliance with limits in the applicable section of this rule [326 IAC 2-11-3] by providing throughput records for the previous twelve (12) months.

Under 326 IAC 2-11-1(g), a source electing to comply with this rule shall comply with the following: 1) The source shall operate and properly maintain air pollution control devices at the source, 2) The source shall follow generally accepted industry work practices to minimize emissions of regulated air pollutants, and 3) The source shall not discharge air pollutants so as to create a public nuisance.

Under 326 IAC 2-11-1(h), this section does not affect a requirement to comply with the provisions of any other applicable federal, state, or local requirement, except as specifically provided in this title.

Sincerely,

Original signed by Paul Dubenetzky
