RE: Elite Enterprises, Inc./Creative Coatings, Inc. / 003-19473-00205

FROM: Paul Dubenetzky
Chief, Permits Branch
Office of Air Quality

Notice of Decision – Approval

Please be advised that on behalf of the Commissioner of the Department of Environmental Management, I have issued a decision regarding the enclosed matter. Pursuant to 326 IAC 2, this approval was effective immediately upon submittal of the application.

If you wish to challenge this decision, IC 4-21.5-3-7 requires that you file a petition for administrative review. This petition may include a request for stay of effectiveness and must be submitted to the Office of Environmental Adjudication, 100 North Senate Avenue, Government Center North, Room 1049, Indianapolis, IN 46204, **within eighteen (18) calendar days from the mailing of this notice**. The filing of a petition for administrative review is complete on the earliest of the following dates that apply to the filing:

- (1) the date the document is delivered to the Office of Environmental Adjudication (OEA);
- (2) the date of the postmark on the envelope containing the document, if the document is mailed to OEA by U.S. mail; or
- (3) The date on which the document is deposited with a private carrier, as shown by receipt issued by the carrier, if the document is sent to the OEA by private carrier.

The petition must include facts demonstrating that you are either the applicant, a person aggrieved or adversely affected by the decision or otherwise entitled to review by law. Please identify the permit, decision, or other order for which you seek review by permit number, name of the applicant, location, date of this notice and all of the following:

- (1) the name and address of the person making the request;
- (2) the interest of the person making the request;
- (3) identification of any persons represented by the person making the request;
- (4) the reasons, with particularity, for the request;
- (5) the issues, with particularity, proposed for considerations at any hearing; and
- (6) identification of the terms and conditions which, in the judgment of the person making the request, would be appropriate in the case in question to satisfy the requirements of the law governing documents of the type issued by the Commissioner.

If you have technical questions regarding the enclosed documents, please contact the Office of Air Quality, Permits Branch at (317) 233-0178. Callers from within Indiana may call toll-free at 1-800-451-6027, ext. 3-0178.

Mr. Michael Kreps and Mr. Gregg David
Elite Enterprises, Inc./Creative Coatings, Inc.
2701 South Coliseum Blvd., Suite 1158/1206
Fort Wayne, Indiana 46803

Re: 003-19473-00205
Administrative Amendment to
Part 70 Permit No.: T003-7588-00205

Dear Mr. Kreps and Mr. David:

Elite Enterprises, Inc. was issued a Part 70 Operating Permit T003-7588-00205 on September 3, 1999 for a stationary metal and plastic surface coating operation. On September 9, 2004, a draft Significant Permit Modification (003-19780-00205) to Elite Enterprise's Title V permit was approved for public notice that incorporated two surface coating lines that Creative Coatings, Inc. (Suite 1284) took over from Elite Enterprises on March 31, 2004. The basis for generating the permit modification was that Elite Enterprises (Suite 1158) and Creative Coatings (Suite 1284) were determined to be collocated; the two sources were owned by the same parent company, were located on the same property or contiguous properties, and operated under the same SIC code (3479). The two sources were permitted for the coating of metal and/or plastic parts.

On August 10, 2004, Creative Coatings, Inc. submitted an application to IDEM, OAQ requesting a new and separate permit (exemption) for a new motor vehicle plastic part coating operation located on the same property or contiguous property (Suite 1206) under the SIC codes 7389 and 8999. IDEM, OAQ has determined that the SIC Codes (7389 and 8999) provided for this new source are not appropriate for a motor vehicle plastic part coating operation. The most appropriate SIC Code for this new source is 3714.

Since Elite Enterprise, Inc. performs coating of motor vehicle parts and accessories, as well as, other miscellaneous metal and plastic products for medical, consumer, and building industries, IDEM, OAQ has determined that Elite Enterprises, Inc. should be categorized under the three SIC Codes 3714, 3479, and 3089.

Based on these determinations, this new source (Creative Coatings, Suite 1206) and Elite Enterprises are again considered collocated, and Elite Enterprise's Title V permit will be modified to incorporate this new source. Based on the application data received on August 10, 2004 and the provisions in 326 IAC 2-1.1-3, it has been determined that this new motor vehicle plastic part coating source, to be located at 2701 South Coliseum Blvd., Suite 1206, Fort Wayne, Indiana 46803, is classified as exempt from air pollution permit requirements. Pursuant to the provisions of 326 IAC 2-7-11(a)(8), construction of this new emission unit at the source qualifies as incorporation of "exempt units as described in 326 IAC 2-1.1-3 that does not otherwise constitute a modification for purposes of section 326 IAC 2-7-10.5 or 326 IAC 2-7-12." Therefore, the Sections A.1, A.2, and D.2 of the permit are hereby administratively amended as follows with new language **bolded**:

A.1 General Information [326 IAC 2-7-4(c)] [326 IAC 2-7-5(15)]

The Permittee owns and operates a stationary metal and plastic surface coating operation for transportation (automotive and trucking), medical, consumer, and building industries.

Responsible Official: Michael R. Kreps
Source Address: 2701 South Coliseum Boulevard, Suite 1158. Fort Wayne, IN 46803
Mailing Address: 2701 South Coliseum Boulevard, Suite 1158. Fort Wayne, IN 46803
Phone Number: (219) 420-1605
SIC Code: **3714**, 3479, 3089
County Location: Allen
County Status: Nonattainment for Ozone under the 8-hour Standard
Attainment for all other criteria pollutants
Source Status: Part 70 Permit Program
Minor Source, under PSD Rules
Major Source under Nonattainment NSR
Major Source, Section 112 of the Clean Air Act

A.2 Emissions Units and Pollution Control Equipment Summary [326 IAC 2-7-4(c)(3)]
[326 IAC 2-7-5(15)]

This stationary source consists of the following emissions units and pollution control devices:

Plant 1 (Elite Enterprises, Inc., **Suite 1158**)

- (a) Four (4) paint booths, identified as PB1, PB2, PB3, PB4, each equipped with two (2) 8,200 acfm exhaust fan, with a maximum capacity of one of the following:
- (1) 280 plastic large end caps per hour;
 - (2) 280 plastic air deflectors per hour;
 - (3) 140 plastic door trim parts per hour;
 - (4) 420 miscellaneous metal parts per hour

All paint booths listed are each equipped with either a high volume low pressure (HVLP) spray gun applications or an electrostatic spray equipment and water wash filtration for particulate matter control and each exhausting through one (1) stack, ID #'s PB-1 through PB-4, respectively.

Plant 2 (Creative Coatings, Inc., **Suite 1284**)

- (b) One (1) overhead conveyor paint line consisting of the following equipment:
- (1) Five (5) stage water wash unit (identified as WW 1 through 5).
 - (2) One (1) dry off oven (identified as DO1) and one (1) bake oven (identified as BO1), both burning natural gas and with a combined maximum heat input capacity of 1.89 MMBtu per hour.
 - (3) Five (5) paint booths (identified as PB 5 through PB 9), used for coating metal and plastic parts using HVLP guns, with a maximum throughput rate of 75 units per hour, controlled by dry particulate filters and exhausting at stacks PB 5 through PB 9.

- (c) One (1) floor conveyor paint line consisting of the following equipment:
 - (1) One (1) paint booth (identified as PB10), used for coating metal and plastic parts using HVLP guns, with a maximum throughput rate of 21 units per hour, controlled by dry particulate filters and exhausting at stacks PB10A and 10B.
 - (2) One (1) bake oven (identified as BO2), both burning natural gas and with a combined maximum heat input capacity of 0.94 MMBtu per hour.
- (d) One (1) parts cleaning unit (wipe solvent), with a maximum solvent usage of 1.5 gallons per day.

Plant 2 (Creative Coatings, Inc., Suite 1206)

The following emission unit is exempt from air pollution permit requirements because the potential to emit (PTE) a single HAP is less than one (1) ton per year, the PTE of any combination of HAPs is less than two and five-tenths (2.5) tons per year, the PTE of volatile organic compounds (VOCs) is less than ten (10) tons per year, and the PTE of particulate matter (PM) is less than five (5) tons per year.

- (a) One dual use wet paint booth (application of base coat and clear coat), identified as PB-1, capable of painting 40 motor vehicle sets (consisting of plastic parts) per day, using low pressure-high volume (LPHV) spray guns, equipped with dry filters to control emissions, and exhausting through stacks Exh-1 through Exh-6.
- (b) One (1) parts cleaning operation (wipe solvent), with a maximum solvent usage of 1.0 gallons per day (isopropyl alcohol).

The “wipe cleaning” degreasing operation for this source is not one of the degreasing operations listed in 326 IAC 8-3, therefore 326 IAC 8-3 does not apply. This source is not subject to the requirements of the National Emission Standards for Hazardous Air Pollutants (NESHAP), Subpart T or 326 IAC 20-6-1 because this operation does not use a degreasing solvent that contains any of the halogenated compounds listed in 40 CFR 63.460(a) or 326 IAC 20-6-1(a), respectively.

SECTION D.1 FACILITY OPERATION CONDITIONS

Facility Description [326 IAC 2-7-5(15)]:
Plant 1 (Elite Enterprises, Inc., Suite 1158)

SECTION D.2 FACILITY OPERATION CONDITIONS

Facility Description [326 IAC 2-7-5(15)]:
Plant 2 (Creative Coatings, Inc., Suite 1284)

All other conditions of the permit shall remain unchanged and in effect. Please attach a copy of this amendment and the following revised permit pages to the front of the original permit.

This decision is subject to the Indiana Administrative Orders and Procedures Act - IC 4-21.5-3-5. If you have any questions on this matter, please contact Nathan C. Bell, c/o OAQ, 100 North Senate Avenue, P.O. Box 6015, Indianapolis, Indiana, 46206-6015, at 317-234-3350 or in Indiana at 1-800-451-6027 (ext 43350).

Sincerely,

PART 70 OPERATING PERMIT OFFICE OF AIR QUALITY

**Elite Enterprises, Inc.
 2701 South Coliseum Boulevard
 Suite 1158
 Fort Wayne, Indiana 46803**

(herein known as the Permittee) is hereby authorized to operate subject to the conditions contained herein, the source described in Section A (Source Summary) of this permit.

This permit is issued in accordance with 326 IAC 2 and 40 CFR Part 70 Appendix A and contains the conditions and provisions specified in 326 IAC 2-7 and 326 IAC 2-1-3.2 as required by 42 U.S.C. 7401, et. seq. (Clean Air Act as amended by the 1990 Clean Air Act Amendments), 40 CFR Part 70.6, IC 13-15 and IC 13-17.

Operation Permit No.: T003-7588-00205	
Issued by: Janet G. McCabe, Assistant Commissioner Office of Air Quality	Issuance Date: September 3, 1999 Expiration Date: September 3, 2004

First Significant Permit Modification No.: 003-17491-00205, issued February 29, 2004 Second Significant Permit Modification No.: 003-19780-00205, Pending
--

First Administrative Amendment No.: 003-19473-00205	Pages Affected: 5, 6, 30, 38
Issued by: Original signed by Paul Dubenetzky, Branch Chief Office of Air Quality	Issuance Date: October 21, 2004

SECTION A

SOURCE SUMMARY

This permit is based on information requested by the Indiana Department of Environmental Management (IDEM), Office of Air Quality (OAQ). The information describing the source contained in conditions A.1 through A.3 is descriptive information and does not constitute enforceable conditions. However, the Permittee should be aware that a physical change or a change in the method of operation that may render this descriptive information obsolete or inaccurate may trigger requirements for the Permittee to obtain additional permits or seek modification of this permit pursuant to 326 IAC 2, or change other applicable requirements presented in the permit application.

A.1 General Information [326 IAC 2-7-4(c)] [326 IAC 2-7-5(15)]

The Permittee owns and operates a stationary metal and plastic surface coating operation for transportation (automotive and trucking), medical, consumer, and building industries.

Responsible Official: Michael R. Kreps
Source Address: 2701 South Coliseum Boulevard, Suite 1158. Fort Wayne, IN 46803
Mailing Address: 2701 South Coliseum Boulevard, Suite 1158. Fort Wayne, IN 46803
Phone Number: (219) 420-1605
SIC Code: 3714, 3479, 3089
County Location: Allen
County Status: Nonattainment for Ozone under the 8-hour Standard
Attainment for all other criteria pollutants
Source Status: Part 70 Permit Program
Minor Source, under PSD Rules
Major Source under Nonattainment NSR
Major Source, Section 112 of the Clean Air Act

A.2 Emission Units and Pollution Control Equipment Summary [326 IAC 2-7-4(c)(3)] [326 IAC 2-7-5(15)]

This stationary source consists of the following emission units and pollution control devices:

Plant 1 (Elite Enterprises, Inc., Suite 1158)

- (a) Four (4) paint booths, identified as PB1, PB2, PB3, PB4, each equipped with two (2) 8,200 acfm exhaust fan, with a maximum capacity of one of the following:
- (1) 280 plastic large end caps per hour;
 - (2) 280 plastic air deflectors per hour;
 - (3) 140 plastic door trim parts per hour;
 - (4) 420 miscellaneous metal parts per hour

All paint booths listed are each equipped with either a high volume low pressure (HVLP) spray gun applications or an electrostatic spray equipment and water wash filtration for particulate matter control and each exhausting through one (1) stack, ID #'s PB-1 through PB-4, respectively.

Plant 2 (Creative Coatings, Inc., Suite 1284)

- (b) One (1) overhead conveyor paint line consisting of the following equipment:
- (1) Five (5) stage water wash unit (identified as WW 1 through 5), exhausting inside the building.
 - (2) One (1) dry off oven (identified as DO1) and one (1) bake oven (identified as BO1), both burning natural gas and with a combined maximum heat input capacity of 1.89 MMBtu per hour, and exhausting inside the building.
 - (3) Five (5) paint booths (identified as PB5 through PB9), used for coating metal and plastic parts using HVLP guns, with a maximum throughput rate of 75 units per hour, controlled by dry particulate filters and exhausting at stacks PB 5 through PB9.
- (c) One (1) floor conveyor paint line consisting of the following equipment:
- (1) One (1) paint booth (identified as PB10), used for coating metal and plastic parts using HVLP guns, with a maximum throughput rate of 21 units per hour, controlled by dry particulate filters and exhausting at stacks PB10A and 10B.
 - (2) One (1) bake oven (identified as BO2), both burning natural gas and with a combined maximum heat input capacity of 0.94 MMBtu per hour.
- (d) One (1) parts cleaning unit (wipe solvent), with a maximum solvent usage of 1.5 gallons per day.

Plant 2 (Creative Coatings, Inc., Suite 1206)

The following emission unit is exempt from air pollution permit requirements because the potential to emit (PTE) a single HAP is less than one (1) ton per year, the PTE of any combination of HAPs is less than two and five-tenths (2.5) tons per year, the PTE of volatile organic compounds (VOCs) is less than ten (10) tons per year, and the PTE of particulate matter (PM) is less than five (5) tons per year.

- (a) One dual use wet paint booth (application of base coat and clear coat), identified as PB-1, capable of painting 40 motor vehicle sets (consisting of plastic parts) per day, using low pressure-high volume (LPHV) spray guns, equipped with dry filters to control emissions, and exhausting through stacks Exh-1 through Exh-6.
- (b) One (1) parts cleaning operation (wipe solvent), with a maximum solvent usage of 1.0 gallons per day (isopropyl alcohol).

The "wipe cleaning" degreasing operation for this source is not one of the degreasing operations listed in 326 IAC 8-3, therefore 326 IAC 8-3 does not apply. This source is not subject to the requirements of the National Emission Standards for Hazardous Air Pollutants (NESHAP), Subpart T or 326 IAC 20-6-1 because this operation does not use a degreasing solvent that contains any of the halogenated compounds listed in 40 CFR 63.460(a) or 326 IAC 20-6-1(a), respectively.

A.3 Specifically Regulated Insignificant Activities [326 IAC 2-7-1(21)] [326 IAC 2-7-4(c)]
[326 IAC 2-7-5(15)]

This stationary source does not currently have any insignificant activities, as defined in 326 IAC 2-7-1 (21) that have applicable requirements.

SECTION D.1 FACILITY OPERATION CONDITIONS

Facility Description [326 IAC 2-7-5(15)]

Plant 1 (Elite Enterprises, Inc., Suite 1158)

- (a) Four (4) paint booths, identified as PB1, PB2, PB3, PB4, each equipped with two (2) 8,200 acfm exhaust fan, with a maximum capacity of one of the following:
 - (1) 280 plastic large end caps per hour;
 - (2) 280 plastic air deflectors per hour;
 - (3) 140 plastic door trim parts per hour;
 - (4) 420 miscellaneous metal parts per hour

All paint booths listed are each equipped with either a high volume low pressure (HVLV) spray gun applications or an electrostatic spray equipment and water wash filtration for particulate matter control and each exhausting through one (1) stack, ID #'s PB-1 through PB-4, respectively.

(The information describing this process contained in this facility description box is descriptive information and does not constitute enforceable conditions.)

Emission Limitations and Standards [326 IAC 2-7-5(1)]

D.1.1 General Provisions Relating to HAPs [326 IAC 20-1][40 CFR Part 63, Subpart A] [Table 2 to 40 CFR Part 63, Subpart M] [40 CFR 63.3901]

- (a) The provisions of 40 CFR Part 63, Subpart A - General Provisions, which are incorporated by reference as 326 IAC 20-1-1, apply to the affected source, except when otherwise specified by Table 2 to 40 CFR Part 63, Subpart M. The Permittee must comply with these requirements on and after August 18, 2006.
- (b) Since the applicable requirements associated with the compliance options are not included and specifically identified in this permit, the permit shield authorized by the B section of this permit in the condition titled Permit Shield, and set out in 326 IAC 2-7-15 does not apply to paragraph (a) of this condition.

D.1.2 General Provisions Relating to HAPs [326 IAC 20-1][40 CFR Part 63, Subpart A] [Table 2 to 40 CFR Part 63, Subpart P] [40 CFR 63.2398]

- (a) The provisions of 40 CFR Part 63, Subpart A - General Provisions, which are incorporated by reference as 326 IAC 20-1-1, apply to the affected source, except when otherwise specified by Table 2 to 40 CFR Part 63, Subpart P. The Permittee must comply with these requirements on and after the effective date of the National Emission Standards for Hazardous Air Pollutants for Surface Coating of Plastic Parts and Products.
- (b) Since the applicable requirements associated with the compliance options are not included and specifically identified in this permit, the permit shield authorized by the B section of this permit in the condition titled Permit Shield, and set out in 326 IAC 2-7-15 does not apply to paragraph (a) of this condition.

SECTION D.2

FACILITY OPERATION CONDITIONS

Facility Description [326 IAC 2-7-5(15)]

Plant 2 (Creative Coatings, Inc., Suite 1284)

- (b) One (1) overhead conveyor paint line consisting of the following equipment:
 - (1) Five (5) stage water wash unit (identified as WW 1 through 5)
 - (2) One (1) dry off oven (identified as DO1) and one (1) bake oven (identified as BO1), both burning natural gas and with a combined maximum heat input capacity of 1.89 MMBtu per hour.
 - (3) Five (5) paint booths (identified as PB5 through PB9), used for coating metal and plastic parts using HVLP guns, with a maximum throughput rate of 75 units per hour, controlled by dry particulate filters and exhausting at stacks PB 5 through PB9.
- (c) One (1) floor conveyor paint line consisting of the following equipment:
 - (1) One (1) paint booth (identified as PB10), used for coating metal and plastic parts using HVLP guns, with a maximum throughput rate of 21 units per hour, controlled by dry particulate filters and exhausting at stacks PB10A and 10B.
 - (2) One (1) bake oven (identified as BO2), both burning natural gas and with a combined maximum heat input capacity of 0.94 MMBtu per hour.
- (d) One (1) parts cleaning unit (wipe solvent), with a maximum solvent usage of 1.5 gallons per day.

(The information describing this process contained in this facility description box is descriptive information and does not constitute enforceable conditions.)

Emission Limitations and Standards [326 IAC 2-7-5(1)]

D.2.1 General Provisions Relating to HAPs [326 IAC 20-1][40 CFR Part 63, Subpart A] [Table 2 to 40 CFR Part 63, Subpart M] [40 CFR 63.3901]

- (a) The provisions of 40 CFR Part 63, Subpart A - General Provisions, which are incorporated by reference as 326 IAC 20-1-1, apply to the affected source, except when otherwise specified by Table 2 to 40 CFR Part 63, Subpart M. The Permittee must comply with these requirements on and after August 18, 2006.
- (b) Since the applicable requirements associated with the compliance options are not included and specifically identified in this permit, the permit shield authorized by the B section of this permit in the condition titled Permit Shield, and set out in 326 IAC 2-7-15 does not apply to paragraph (a) of this condition.

D.2.2 General Provisions Relating to HAPs [326 IAC 20-1][40 CFR Part 63, Subpart A] [Table 2 to 40 CFR Part 63, Subpart P] [40 CFR 63.2398]

- (a) The provisions of 40 CFR Part 63, Subpart A - General Provisions, which are incorporated by reference as 326 IAC 20-1-1, apply to the affected source, except when otherwise specified by Table 2 to 40 CFR Part 63, Subpart P. The Permittee must comply with these requirements on and after the effective date of the National Emission Standards for Hazardous Air Pollutants for Surface Coating of Plastic Parts and Products.
