RE: Quality Park dba Discount Labels, Inc. / 043-19807-00029

FROM: Paul Dubenetzky
Chief, Permits Branch
Office of Air Quality

Notice of Decision – Approval

Please be advised that on behalf of the Commissioner of the Department of Environmental Management, I have issued a decision regarding the enclosed matter. Pursuant to 326 IAC 2, this approval was effective immediately upon submittal of the application.

If you wish to challenge this decision, IC 4-21.5-3-7 requires that you file a petition for administrative review. This petition may include a request for stay of effectiveness and must be submitted to the Office of Environmental Adjudication, 100 North Senate Avenue, Government Center North, Room 1049, Indianapolis, IN 46204, **within eighteen (18) calendar days from the mailing of this notice**. The filing of a petition for administrative review is complete on the earliest of the following dates that apply to the filing:

- (1) the date the document is delivered to the Office of Environmental Adjudication (OEA);
- (2) the date of the postmark on the envelope containing the document, if the document is mailed to OEA by U.S. mail; or
- (3) The date on which the document is deposited with a private carrier, as shown by receipt issued by the carrier, if the document is sent to the OEA by private carrier.

The petition must include facts demonstrating that you are either the applicant, a person aggrieved or adversely affected by the decision or otherwise entitled to review by law. Please identify the permit, decision, or other order for which you seek review by permit number, name of the applicant, location, date of this notice and all of the following:

- (1) the name and address of the person making the request;
- (2) the interest of the person making the request;
- (3) identification of any persons represented by the person making the request;
- (4) the reasons, with particularity, for the request;
- (5) the issues, with particularity, proposed for considerations at any hearing; and
- (6) identification of the terms and conditions which, in the judgment of the person making the request, would be appropriate in the case in question to satisfy the requirements of the law governing documents of the type issued by the Commissioner.

If you have technical questions regarding the enclosed documents, please contact the Office of Air Quality, Permits Branch at (317) 233-0178. Callers from within Indiana may call toll-free at 1-800-451-6027, ext. 3-0178.

Mr. Doug Bailey
Quality Park dba Discount Labels, Inc.
4115 Profit Court
New Albany, Indiana 47150

Re: 043-19807-00029
First Administrative Amendment to
FESOP 043-14011-00029

Dear Mr. Bailey:

Quality Park dba Discount Labels, Inc., located at 4115 Profit Court, New Albany, Indiana 47150, was issued a renewed Federally Enforceable State Operating Permit (FESOP) on January 10, 2002 for operation of a stationary label printing facility. A letter requesting a change to the FESOP was received on November 4, 2004. The source requested that permit be updated to reflect the current company name. In addition, the source requested an extension in the 18 month commencement of construction time period related to the construction of seven (7) flexographic printing presses (650-23, 650-24, 650-25, 650-26, 650-27, 650-28, and 650-29) and five (5) non-heatset offset printing presses (Ryobi-6, Ryobi-7, Ryobi-8, Ryobi-9, and Ryobi-10) listed in the FESOP. The source has completed construction of flexographic printing press 650-22 and began construction of flexographic printing press 650-23 on July 5, 2004.

On December 14, 2004, the source notified the OAQ that the remaining "new" equipment listed in the renewed FESOP (i.e., items p, q, r, s, t, u, x, y, and z) had not started construction and that there were no plans in the foreseeable future to construct these units. The source has agreed to remove items p, q, r, s, t, u, x, y, and z from the FESOP. Therefore, the permit is being revised accordingly.

No new state rules are applicable to this source. This new source is not a major PSD stationary source because no attainment regulated pollutant is emitted at a rate of 250 tons per year or greater and it is not in one of the 28 source categories listed in 326 IAC 2-2-1(y)(1). There are no New Source Performance Standards (NSPS)(326 IAC 12 and 40 CFR Part 60) or National Emission standards for Hazardous Air Pollutants (NESHAPs) (326 IAC 14 and 40 CFR 63) applicable to this source

OAQ agrees to extend the 18 month commencement of construction time period for the seven (7) flexographic printing presses and five (5) non-heatset offset printing presses described above to July 5, 2005. This document further amends the FESOP in similar manner: If construction of these units does not commence on or by July 5, 2005, additional approval from OAQ will be required.

The changes to the permit described above qualify as a "revision to descriptive information where the revision will not trigger a new applicable requirement or violate a permit term", under 326 IAC 2-8-10, Administrative Permit Amendments. Pursuant to the provisions of 326 IAC 2-8-10, of Sections A.1, A.2, and D.3 of the permit are hereby administratively amended as follows with deleted language as ~~strikeouts~~ and new language **bolded**:

A.1 General Information [326 IAC 2-8-3(b)]

The Permittee owns and operates a stationary label printing facility.

Permittee Name: Quality Park dba Discount Labels, Inc. (formerly Print Xcel dba Discount Labels, Inc.)
Authorized individual: Allen Conway
Source Address: 4115 Profit Court, New Albany, Indiana 47150
Mailing Address: P.O. Box 709, New Albany, Indiana 47151-0709
SIC Code: 2759
Source Location Status: Floyd
County Status: Nonattainment for ozone
Attainment for all other criteria pollutants
Source Status: Federally Enforceable State Operating Permit (FESOP)
Minor Source, under PSD or Emission Offset Rules;

A.2 Emission Units and Pollution Control Equipment Summary [326 IAC 2-8-3(c)(3)]

This stationary source consists of the following emission units and pollution control devices:

- ~~(p) One (1) wide double web flexographic printing press, identified as WDW-7, with a maximum line speed of seventy-five (75) feet per minute and a printing width of ten (10) inches.~~
- ~~(q) Two (2) Tripress flexographic printing presses, identified as Tri-17 and Tri-18, both with a maximum line speed of seventy-five (75) feet per minute and a printing width of six (6) inches.~~
- ~~(r) One (1) Mid-Double-Web flexographic printing press, identified as MDW-4, with a maximum line speed of seventy-five (75) feet per minute and a printing width of eight (8) inches.~~
- ~~(s) One (1) Double-Die Tripresses flexographic printing press, identified as DDTRI-5, with a maximum line speed of seventy-five (75) feet per minute and a printing width of eight (8) inches.~~
- ~~(t) One (1) Narrow Double-Web flexographic printing press, identified as NDW-6, with a maximum line speed of seventy-five (75) feet per minute and a printing width of five (5) inches.~~
- ~~(u) Three (3) Webtron 450 flexographic printing presses, identified as 450-16, 450-17, and 450-18, each with a maximum line speed of one hundred and fifty (150) feet per minute and a printing width of four (4) inches.~~
- ~~(vp) Eight (8) Webtron 650 flexographic printing presses, identified as 650-22, 650-23, 650-24, 650-25, 650-26, 650-27, 650-28, and 650-29, each with a maximum line speed of one hundred and fifty (150) feet per minute and a printing width of six (6) inches.~~
- ~~(wq) Five (5) non-heatset offset printing presses, identified as Ryobi-6, Ryobi-7, Ryobi-8, Ryobi-9, and Ryobi-10, each with a maximum line speed of one hundred and ten (110) feet per minute and a printing area of ninety-three and a half (93.5) square inches.~~
- ~~(x) Three (3) DLI flexographic printing presses, identified as MAN-6 (with a maximum line speed of four hundred (400) feet per minute and a printing width of sixteen (16) inches); MAN-7 (with a maximum line speed of four hundred (400) feet per minute and a printing~~

width of twenty-two (22) inches) and MAN-8 (with a maximum line speed of one hundred and fifty (150) feet per minute and a printing width of six and a half (6.5) inches).

(y) — Two (2) Xerox Docucolor 40 Digital Color Production Systems with a maximum line speed of forty (40) 82 x 11 pages per minute.

(z) — One (1) seamer with a maximum line speed of two hundred and twenty (220) millimeters per minute and a width of two hundred and fifty (250) millimeters.

SECTION D.3 FACILITY CONDITIONS

Facility Description [326 IAC 2-8-4(10)]:

(p) — One (1) wide double web flexographic printing press, identified as WDW-7, with a maximum line speed of seventy-five (75) feet per minute and a printing width of ten (10) inches.

(q) — Two (2) Tripress flexographic printing presses, identified as Tri-17 and Tri-18, both with a maximum line speed of seventy-five (75) feet per minute and a printing width of six (6) inches.

(r) — One (1) Mid Double Web flexographic printing press, identified as MDW-4, with a maximum line speed of seventy-five (75) feet per minute and a printing width of eight (8) inches.

(s) — One (1) Double Die Tripresses flexographic printing press, identified as DDTRI-5, with a maximum line speed of seventy-five (75) feet per minute and a printing width of eight (8) inches.

(t) — One (1) Narrow Double Web flexographic printing press, identified as NDW-6, with a maximum line speed of seventy-five (75) feet per minute and a printing width of five (5) inches.

(u) — Three (3) Webtron 450 flexographic printing presses, identified as 450-16, 450-17, and 450-18, each with a maximum line speed of one hundred and fifty (150) feet per minute and a printing width of four (4) inches.

(vp) — Eight (8) Webtron 650 flexographic printing presses, identified as 650-22, 650-23, 650-24, 650-25, 650-26, 650-27, 650-28, and 650-29, each with a maximum line speed of one hundred and fifty (150) feet per minute and a printing width of six (6) inches.

(wq) — Five (5) non-heatset offset printing presses, identified as Ryobi-6, Ryobi-7, Ryobi-8, Ryobi-9, and Ryobi-10, each with a maximum line speed of one hundred and ten (110) feet per minute and a printing area of ninety-three and half (93.5) square inches.

(x) — Three (3) DLI flexographic printing presses, identified as MAN-6 (with a maximum line speed of four hundred (400) feet per minute and a printing width of sixteen (16) inches), MAN-7 (with a maximum line speed of four hundred (400) feet per minute and a printing width of twenty-two (22) inches) and MAN-8 (with a maximum line speed of one hundred and fifty (150) feet per minute and a printing width of six and a half (6.5) inches).

(y) — Two (2) Xerox Docucolor 40 Digital Color Production Systems with a maximum line speed of forty (40) 82 x 11 pages per minute.

(z) — One (1) seamer with a maximum line speed of two hundred and twenty (220) millimeters per minute and a width of two hundred and fifty (250) millimeters.

(The information describing the process contained in this facility description box is descriptive information and does not constitute enforceable conditions.)

All other conditions of the permit shall remain unchanged and in effect. Please attach a copy of this amendment and the following revised permit pages to the front of the original permit.

This decision is subject to the Indiana Administrative Orders and Procedures Act - IC 4-21.5-3-5. If you have any questions on this matter, please contact Nathan Bell, at (800) 451-6027, press 0 and ask for Nathan Bell or extension (4-3350), or dial (317) 234-3350.

Sincerely,

Original signed by

**FEDERALLY ENFORCEABLE STATE
 OPERATING PERMIT (FESOP)
 OFFICE OF AIR QUALITY**

**Quality Park dba Discount Labels, Inc.
 4115 Profit Court
 New Albany, Indiana 47150**

(herein known as the Permittee) is hereby authorized to operate subject to the conditions contained herein, the source described in Section A (Source Summary) of this permit.

This permit is issued in accordance with 326 IAC 2 and 40 CFR Part 70 Appendix A and contains the conditions and provisions specified in 326 IAC 2-8 as required by 42 U.S.C. 7401, et. seq. (Clean Air Act as amended by the 1990 Clean Air Act Amendments), 40 CFR Part 70.6, IC 13-15 and IC 13-17.

Operation Permit No.: F043-14011-00029	
Issued by: Original signed by Paul Dubenetzky, Branch Chief Office of Air Quality	Issuance Date: January 10, 2002 Expiration Date: January 10, 2007
First Administrative Amendment No.: 043-19807-00029	Pages Affected: 5, 6, 7, 8, 32
Issued by: Original signed by Paul Dubenetzky, Branch Chief Office of Air Quality	Issuance Date: December 21, 2004

SECTION A SOURCE SUMMARY

This permit is based on information requested by the Indiana Department of Environmental Management (IDEM), Office of Air Quality (OAQ). The information describing the source contained in conditions A.1 through A.3 is descriptive information and does not constitute enforceable conditions. However, the Permittee should be aware that a physical change or a change in the method of operation that may render this descriptive information obsolete or inaccurate may trigger requirements for the Permittee to obtain additional permits or seek modification of this permit pursuant to 326 IAC 2, or change other applicable requirements presented in the permit application.

A.1 General Information [326 IAC 2-8-3(b)]

The Permittee owns and operates a stationary label printing facility.

Permittee Name: Quality Park dba Discount Labels, Inc. (formerly Print Xcel dba Discount Labels, Inc.)
Authorized individual: Allen Conway
Source Address: 4115 Profit Court, New Albany, Indiana 47150
Mailing Address: P.O. Box 709, New Albany, Indiana 47151-0709
SIC Code: 2759
Source Location Status: Floyd
County Status: Nonattainment for ozone
Attainment for all other criteria pollutants
Source Status: Federally Enforceable State Operating Permit (FESOP)
Minor Source, under PSD or Emission Offset Rules;

A.2 Emission Units and Pollution Control Equipment Summary [326 IAC 2-8-3(c)(3)]

This stationary source consists of the following emission units and pollution control devices:

- (a) Five (5) wide double web flexographic printing presses, identified as WDW-1, WDW-2, WDW-3, WDW-4, and WDW-6, each with a maximum line speed of seventy-five (75) feet per minute and a printing width of ten (10) inches.
- (b) Fourteen (14) Tripress flexographic printing presses, identified as Tri-1, Tri-2, Tri-3, Tri-4, Tri-5, Tri-7, Tri-8, Tri-10, Tri-11, Tri-12, Tri-13, Tri-14, Tri-15, and Tri-16, each with a maximum line speed of seventy-five (75) feet per minute and a printing width of six (6) inches.
- (c) Three (3) Mid Double Web flexographic printing presses identified as MDW-1, MDW-2, and MDW-3, each with a maximum line speed of seventy-five (75) feet per minute and a printing width of eight (8) inches.
- (d) Four (4) Double Die Tripresses flexographic printing presses, identified as DDTRI-1, DDTRI-2, DDTRI-3, and DDTRI-4, each with a maximum line speed of seventy-five (75) feet per minute and a printing width of eight (8) inches.
- (e) Four (4) Narrow Double Web flexographic printing presses, identified as NDW-2, NDW-3, NDW-4, and NDW-5, each with a maximum line speed of seventy-five (75) feet per minute and a printing width of five (5) inches.
- (f) Fifteen (15) Webtron 450 flexographic printing presses, identified as 450-1, 450-2, 450-3, 450-4, 450-5, 450-6, 450-7, 450-8, 450-9, 450-10, 450-11, 450-12, 450-13, 450-14, and 450-15, each with a maximum line speed of one hundred and fifty (150) feet per minute and a printing width of four (4) inches.
- (g) Twenty-one (21) Webtron 650 flexographic printing presses, identified as 650-1, 650-2, 650-3, 650-4, 650-5, 650-6, 650-7, 650-8, 650-9, 650-10, 650-11, 650-12, 650-13, 650-14, 650-15, 650-16, 650-17, 650-18, 650-19, 650-20, and 650-21, each with a maximum line speed of one hundred and fifty (150) feet per minute and a printing width of six (6) inches.

- (h) Five (5) Single Web flexographic printing presses, identified as SW-1, SW-2, SW-3, SW-4, and SW-5, each with a maximum line speed of seventy-five (75) feet per minute and a printing width of five and a half (5.5) inches.
- (i) One (1) Barricade Banner flexographic printing press, identified as BB-1, with a maximum line speed of one hundred and fifty (150) feet per minute and a printing width of five (5) inches.
- (j) Two (2) Manhasset flexographic printing presses, identified as MAN-2 and MAN-3, each with a maximum line speed of one hundred and fifty (150) feet per minute and a printing width of twelve (12) inches.
- (k) One (1) Manhasset flexographic printing press, identified as MAN-4, with a maximum line speed of one hundred and fifty (150) feet per minute and a printing width of thirteen (13) inches.
- (l) Five (5) non-heatset offset printing presses, identified as Ryobi-1, Ryobi-2, Ryobi-3, Ryobi-4, and Ryobi-5, each with a maximum line speed of one hundred and ten (110) feet per minute and a printing area of ninety-three and a half (93.5) square inches.
- (m) One (1) Wide Single Web flexographic printing press, identified as WSW-1, with a maximum line speed of seventy-five (75) feet per minute and a printing width of twelve (12) inches.
- (n) One (1) DLI flexographic printing press, identified as MAN-5, with a maximum line speed of two hundred (200) feet per minute and a printing width of twelve (12) inches.
- (o) One (1) paint booth, identified as PB-1, equipped with an air atomization spray gun for wood furniture coating, at a maximum capacity of 0.14 wood parts per hour, with dry filters for over spray control.
- (p) Eight (8) Webtron 650 flexographic printing presses, identified as 650-22, 650-23, 650-24, 650-25, 650-26, 650-27, 650-28, and 650-29, each with a maximum line speed of one hundred and fifty (150) feet per minute and a printing width of six (6) inches.
- (q) Five (5) non-heatset offset printing presses, identified as Ryobi-6, Ryobi-7, Ryobi-8, Ryobi-9, and Ryobi-10, each with a maximum line speed of one hundred and ten (110) feet per minute and a printing area of ninety-three and a half (93.5) square inches.

A.3 Insignificant Activities [326 IAC 2-7-1(21)] [326 IAC 2-8-3(c)(3)(I)]

This stationary source also includes the following insignificant activities, as defined in 326 IAC 2-7-1(21):

- (a) Natural gas-fired combustion sources with heat input equal to or less than ten million (10,000,000) Btu per hour;
- (b) Machining where an aqueous cutting coolant continuously floods the machining interface;
- (c) The following equipment related to manufacturing activities not resulting in the emission of HAPs: brazing equipment, cutting torches, soldering equipment, welding equipment;
- (d) Closed loop heating and cooling systems;
- (e) Infrared cure equipment;

- (f) Solvent recycling systems with batch capacity less than or equal to 100 gallons;
- (g) Activities associated with the treatment of wastewater streams with an oil and grease content less than or equal to 1% by volume,
- (h) Water based adhesives that are less than or equal to 5% by volume of VOCs excluding HAPs;
- (i) Replacement or repair of electrostatic precipitators, bags in baghouses and filters in other air filtration equipment;
- (j) Blowdown for any of the following: sight glass; boiler; compressors; pumps; and cooling tower;
- (k) On-site fire and emergency response training approved by the department;
- (l) Natural gas turbines or reciprocating engines not exceeding 16,000 horsepower;
- (m) Exposure chambers ("towers", "columns"), for curing of ultraviolet inks and ultraviolet coatings where heat is the intended discharge; and
- (n) Emission units whose potential uncontrolled emissions meet the exemption levels specified in 326 IAC 2-1.1-3(d)(1):
 - (1) Various cleaning and maintenance materials with individual VOC emissions of less than ten (10) tons per year.

A.4 FESOP Applicability [326 IAC 2-8-2]

This stationary source, otherwise required to have a Part 70 permit as described in 326 IAC 2-7-2(a), has applied to the Indiana Department of Environmental Management (IDEM), Office of Air Quality (OAQ) to renew a Federally Enforceable State Operating Permit (FESOP) Renewal.

A.5 Prior Permit Conditions

- (a) This permit shall be used as the primary document for determining compliance with applicable requirements established by previously issued permits.
- (b) If, after issuance of this permit, it is determined that the permit is in nonconformance with an applicable requirement that applied to the source on the date of permit issuance, including any term or condition from a previously issued construction or operation permit, IDEM, OAQ, shall immediately take steps to reopen and revise this permit and issue a compliance order to the Permittee to ensure expeditious compliance with the applicable requirement until the permit is reissued.

This page is intentionally left blank

SECTION D.3 FACILITY CONDITIONS

Facility Description [326 IAC 2-8-4(10)]:

- (p) Eight (8) Webtron 650 flexographic printing presses, identified as 650-22, 650-23, 650-24, 650-25, 650-26, 650-27, 650-28, and 650-29, each with a maximum line speed of one hundred and fifty (150) feet per minute and a printing width of six (6) inches.
- (q) Five (5) non-heatset offset printing presses, identified as Ryobi-6, Ryobi-7, Ryobi-8, Ryobi-9, and Ryobi-10, each with a maximum line speed of one hundred and ten (110) feet per minute and a printing area of ninety-three and half (93.5) square inches.

(The information describing the process contained in this facility description box is descriptive information and does not constitute enforceable conditions.)

THIS SECTION OF THE PERMIT IS BEING ISSUED UNDER THE PROVISIONS OF 326 IAC 2-1 AND 326 IAC 2-8-11.1, WITH CONDITIONS LISTED BELOW.
