Re: Response to Review Request No. 089-19815:  
Permit status evaluation  
Plant ID: 089-00106

Dear Mr. Dillon:

SCA Tissue North America LLC, located at 240 Waite Street, Gary, Indiana 46404, submitted a review request on November 1, 2004. The letter was submitted to notify the Office of Air Quality (OAQ) that operations at this source ceased on October 8, 2004. The source requested that the existing Federally Enforceable State Operating Permit (FESOP) No. 089-14760-00106 remain active and inquired about requirements to remain in compliance with the FESOP.

The OAQ has determined that the source must continue to operate subject to the conditions contained in the existing FESOP No. 089-14760-00106, including, but not limited to, the requirements to submit Annual Compliance Certification (ACC) reports and to pay annual fees. With regards to reporting requirements, OAQ has determined that the source must submit, as specified in Section D.2, a Quarterly Report for Volatile Organic Compound (VOC) usage and a Semi-Annual Natural Gas Fired Boiler Certification, both of which should include a letter notifying the OAQ and Gary Department of Environmental Affairs that operations at the source have ceased and that the source will no longer have pollutant emissions or process material throughput. If, at any time, the source proposes to resume operations, the source shall notify the OAQ and Gary Department of Environmental Affairs of the source status and shall resume regular submission of the Quarterly Report and Semi-Annual Certification as specified in Section D.2 of the FESOP.

Questions should be directed to Nathan C. Bell, c/o OAQ, 100 North Senate Avenue, P.O. Box 6015, Indianapolis, Indiana, 46206-6015, at 317-234-3350 or at 1-800-451-6027 (ext 43350).

Sincerely,

Original signed by

Paul Dubenetzky, Chief  
Permits Branch  
Office of Air Quality
