Re: 177-19955-00061  
First Administrative Amendment to  
Significant Source Modification  
SSM No.: 177-16906-00061

Dear Mr. Pontone:

Milso Industries was issued a Part 70 Significant Source Modification on July 2, 2003 for a new metal burial casket production line. A letter requesting an extension of the 18-month commencement of construction deadline was received on December 7, 2004. Pursuant to the provisions of 2-7-11 the permit will be administratively amended, as no new applicable rules or requirements to the permitted emission units will result, or violate existing requirements.

General Construction Condition No. 4 of the Significant Source modification No. 177-16906-00061 states that the permit to construct may be revoked if construction is not commenced within eighteen (18) months after July 2, 2003 (approval date) or if construction is suspended for a continuous period of one (1) year or more.

Therefore, the construction date in Construction Condition No. 4 shall be extended to July 2, 2006.

No condition in the permit will be affected by this change. Please attach a copy of this amendment to the front of the original permit.

This decision is subject to the Indiana Administrative Orders and Procedures Act - IC 4-21.5-3-5. If you have any questions on this matter, please contact Aida De Guzman, at (800) 451-6027, press 0 and ask for extension (3-4972), or dial (317) 233-4972.

Sincerely,
