Re: 039-20052-00277  
Permit Review Request

Dear Mr. Cart:

Mark Line Industries was issued Registration (No.: 039-9211-00277 on December 8, 1999) for a stationary surface coating operation for manufactured homes located at 51687 County Road 133, Bristol, Indiana 46507. On September 7, 2004, the Office of Air Quality (OAQ) received a letter from Mark Line Industries requesting the existing Registration for this source be renewed.

Operations that were previously registered pursuant to 326 IAC 2-5.5, do not need to be renewed. Sources that were existing and operating under a Registration issued prior to the effective date of 326 IAC 2-5.5 must follow the compliance schedule prescribed in 326 IAC 2-5.5-2. Since Mark Line Industries' current Registration was issued after the effective date of 326 IAC 2-5.5, no further action is required until new emissions units or other modifications are planned for this source. An authorized individual is required to provide an annual notice to the OAQ that the source is in operation and in compliance with its registration (326 IAC 2-5.5-4(a)(3)).

Pursuant to Contract No. A305-5-65, IDEM, OAQ has assigned the processing of this review request to Eastern Research Group, Inc., (ERG). Therefore, questions should be directed to Sanobar Durrani, ERG, 1600 Perimeter Park Drive, Morrisville, North Carolina 27560, or call (919) 468-7810 to speak directly to Ms. Durrani. Questions may also be directed to Duane Van Laningham at IDEM, OAQ, 100 North Senate Avenue, Indianapolis, Indiana, 46204 or call (800) 451-6027, and ask for Duane Van Laningham, or extension 3-6878, or dial (317) 233-6878.

Sincerely,

Original signed by  
Paul Dubenetzky, Chief  
Permits Branch  
Office of Air Quality
