Re: Permit by Rule Status  
073-20087-00010

Dear Mr. Simpson:

The letter from Agri Network LLC was received on December 28, 2004. Cargill AgHorizons was issued a Construction Permit and Permit by Rule (PBR) CP073-8769-00010. Cargill AgHorizons has sold the grain handling facility to Agri Network LLC. Based on the data and information submitted and the provisions of 326 IAC 2-11 (Permit by Rule for Specific Source Categories) this elevator qualifies for a Permit by Rule status. Agri Network LLC states that the grain elevator located at 100 Railroad Street, Wheatfield, Indiana satisfies the criteria to operate under the Permit by Rule provisions. The elevator will operate under the name of Agri Network LLC.

Pursuant to 326 IAC 2-11 (Permit by Rule for Specific Source Categories), this source shall comply with the following conditions:

- (a) A source may limit its allowable emissions or potential to emit by complying with the conditions of the applicable section of this rule. A source complying with this rule is not subject to 326 IAC 2-6.1 unless otherwise required by law. A source complying with this rule is not subject to 326 IAC 2-5.1 or 326 IAC 2-7 provided the rule limits the sources allowable emissions or potential to emit below the applicability thresholds for 326 IAC 2-5.1 or 326 IAC 2-7.
- (b) This grain elevator receives grain by truck and/or rail and by truck and/or rail ships grain. To limit allowable emissions or potential to emit as provided in 326 IAC 2-11-3(b)(1), the annual total throughput limits shall be equal to or less than eleven million two hundred thousand (11,200,000) bushels.
- (c) A source complying with this rule may at any time apply for a permit under 326 IAC 2-5.1, 326 IAC 2-6.1, 326 IAC 2-7, 326 IAC 2-8 or an operating agreement under 326 IAC 2-9 as applicable.
- (d) Before a source subject to 326 IAC 2-11 modifies its facility or operations in such a way that it will no longer comply with this rule, it shall obtain the appropriate approval from the commissioner under 326 IAC 2-5.1, 326 IAC 2-6.1, 326 IAC 2-2, 326 IAC 2-3, 326 IAC 2-7 or 326 IAC 2-8.
- (e) No later than thirty (30) days after receipt of a written request by the Department of Environmental Management, Office of Air Quality (OAQ), or the U.S. EPA, the owner or operator of the source shall demonstrate that the source is in compliance with the limits of 326 IAC 2-11, by providing throughput records for the previous twelve (12) months.

- (f) A source electing to comply with 326 IAC 2-11 shall comply with the following:
- (1) the source shall operate and properly maintain air pollution control devices at the source;
  - (2) the source shall follow generally accepted industry work practices to minimize emissions of regulated air pollutants, and
  - (3) the source shall not discharge air pollutants so as to create a public nuisance.

This source is hereby notified that this Permit by Rule approval does not relieve the source of the responsibility to comply with the provisions of any applicable federal, state or local requirements, such as New Source Performance Standards (NSPS, 40 CFR Part 60), or National Standards for Hazardous Air Pollutants (NESHAP, 40 CFR Part 61).

Any violation of 326 IAC 2-11 (Permit by Rule for Specific Source Categories) may result in administrative or judicial enforcement proceedings and penalties under IC 13-30-3.

Sincerely,

Original signed by  
Paul Dubenetzky, Chief  
Permit Branch  
Office of Air Quality
