Re: Permit By Rule for Specific Source Category
#163-20106-00035

Dear Sir or Madam:

ADM/Growmark, a grain terminal, located at 2730 Dixie Flyer Road, Evansville, Indiana 47712 has indicated that it satisfies the criteria to operate under the Permit by Rule for Specific Source Categories provision, per their request dated September 17, 2004.

The Evansville Environmental Protection Agency (EEPA) has evaluated the actual emissions of the source for the year 1999-2003. These emissions are within the thresholds allowed under 326 IAC 2-11-3(b)(1).

Pursuant to 326 IAC 2-11 (Permit by Rule for Specific Source Categories), a source may limit its allowable emissions or potential to emit by complying with the conditions of the applicable section of this rule.

- (1) Before a source subject to this rule modifies its facility or operations in such a way that it will no longer comply with this rule, it shall obtain the appropriate approval from the commissioner under 326 IAC 2-5.1, 326 IAC 2-6.1, 326 IAC 2-2, 326 IAC 2-3, 326 IAC 2-7, or 326 IAC 2-8.
- (2) Not later than thirty (30) days after receipt of written request by the Indiana Department of Environmental Management (IDEM), Office of Air Quality (OAQ), U.S. Environmental Protection Agency (EPA) or the Evansville Environmental Protection Agency (EEPA), the owner or operator of a source subject to this rule shall demonstrate that the source is in compliance with limits in the applicable section of this rule by providing throughput records for the previous twelve (12) months. [326 IAC 2-11-1]
- (3) A source electing to comply with this rule shall comply with the following:
 - (a) The source shall operate and properly maintain air pollution control devices at the source.
 - (b) The source shall follow generally accepted industry work practices to minimize emissions of regulated air pollutants.
 - (c) The source shall not discharge air pollutants so as to create a public nuisance.
- (4) Pursuant to 326 IAC 2-11-3 (Grain elevators), the annual total throughput limits shall be equal to or less than eleven million two hundred thousand (11,200,000) bushels.
- (5) This source is hereby notified that this Permit by Rule for Specific Source Categories approval does not affect a requirement to comply with the provisions of any other applicable federal, state, or local requirements, except as specifically provided in this title.

- (6) Any violation of 326 IAC 2-11 (Permit by Rule for Specific Source Categories) may result in administrative or judicial enforcement proceedings and penalties under IC 13-30-3.

Sincerely,

Alma Mifflin
Permitting Specialist
