RE: TransMontaigne Terminals / 163-20256-00063

FROM: Paul Dubenetzky
Chief, Permits Branch
Office of Air Quality

Notice of Decision – Approval

Please be advised that on behalf of the Commissioner of the Department of Environmental Management, I have issued a decision regarding the enclosed matter. Pursuant to 326 IAC 2, this approval was effective immediately upon submittal of the application.

If you wish to challenge this decision, IC 4-21.5-3-7 requires that you file a petition for administrative review. This petition may include a request for stay of effectiveness and must be submitted to the Office of Environmental Adjudication, 100 North Senate Avenue, Government Center North, Room 1049, Indianapolis, IN 46204, **within eighteen (18) calendar days from the mailing of this notice**. The filing of a petition for administrative review is complete on the earliest of the following dates that apply to the filing:

- (1) the date the document is delivered to the Office of Environmental Adjudication (OEA);
- (2) the date of the postmark on the envelope containing the document, if the document is mailed to OEA by U.S. mail; or
- (3) The date on which the document is deposited with a private carrier, as shown by receipt issued by the carrier, if the document is sent to the OEA by private carrier.

The petition must include facts demonstrating that you are either the applicant, a person aggrieved or adversely affected by the decision or otherwise entitled to review by law. Please identify the permit, decision, or other order for which you seek review by permit number, name of the applicant, location, date of this notice and all of the following:

- (1) the name and address of the person making the request;
- (2) the interest of the person making the request;
- (3) identification of any persons represented by the person making the request;
- (4) the reasons, with particularity, for the request;
- (5) the issues, with particularity, proposed for considerations at any hearing; and
- (6) identification of the terms and conditions which, in the judgment of the person making the request, would be appropriate in the case in question to satisfy the requirements of the law governing documents of the type issued by the Commissioner.

If you have technical questions regarding the enclosed documents, please contact the Office of Air Quality, Permits Branch at (317) 233-0178. Callers from within Indiana may call toll-free at 1-800-451-6027, ext. 3-0178.

Re: 163-20256-00063
Fourth Administrative Amendment to
FESOP 163-10940-00063

Dear Mr. Tarlton:

TransMontaigne Product Services, Inc., located at 2630 Broadway Avenue, Evansville, Indiana 47712, was issued a FESOP on February 13, 2002 for operation of a stationary bulk petroleum product storage and transfer terminal. A letter requesting a change to the FESOP was received on October 14, 2004. The source identified that the distillate barge loading operations, which were included in the Technical Support Document to the FESOP, were not identified in FESOP when it was issued in 2002. The source requested that the distillate barge loading operations and two additional storage tanks be added to the permit as insignificant activities with potential uncontrolled emissions that meet the exemption levels specified 326 IAC 2-1.1-3(e)(1) or 326 IAC 2-7-1(21)(A), whichever is lower. In addition, the permit should be updated to reflect the current, as well as, the previous company name. Inclusion of these items in the permit qualifies as a "revision to descriptive information where the revision will not trigger a new applicable requirement or violate a permit term", under 326 IAC 2-8-10, Administrative Amendment. Pursuant to the provisions of 326 IAC 2-8-10, Sections A.1 and A.3 of the permit is hereby administratively amended as follows with new language **bolded**:

A.1 General Information [326 IAC 2-8-3(b)]

The Permittee owns and operates a stationary operation of a bulk petroleum product storage and transfer terminal

Permittee Name:	TransMontaigne Product Services, Inc. (formerly TransMontaigne Terminaling, Inc. - Evansville Terminal)
Authorized individual:	Mr. Dudley Tarlton, Vice President
Source Address:	2630 Broadway Avenue, Evansville, IN 47712
Mailing Address:	P. O. Box 5660, Denver, Colorado 80217
SIC Code:	4226
Source Location Status:	Vanderburgh
County Status:	Attainment for all criteria pollutants
Source Status:	Federally Enforceable State Operating Permit (FESOP) Minor Source, under PSD Rules; Minor Source, Section 112 of the Clean Air Act

A.3 Insignificant Activities [326 IAC 2-7-1(21)][326 IAC 2-8-3(c)(3)(I)]

This stationary source also includes the following insignificant activities, as defined in 326 IAC 2-7-1(21):

- (d) Distillate barge loading operations**
- (e) One (1) red dye storage tank, identified as Tank #25, with a maximum storage capacity of 350 gallons.**
- (f) One (1) additive storage tank, designated as Tank #23, with a maximum storage capacity of 1100 gallons.**

All other conditions of the permit shall remain unchanged and in effect. Please attach a copy of this amendment and the following revised permit pages to the front of the original permit.

This decision is subject to the Indiana Administrative Orders and Procedures Act - IC 4-21.5-3-5. If you have any questions on this matter, please contact Nathan Bell, at (800) 451-6027, press 0 and ask for Nathan Bell or extension (4-3350), or dial (317) 234-3350.

Sincerely,

Original signed by

SECTION A SOURCE SUMMARY

This permit is based on information requested by the Indiana Department of Environmental Management (IDEM), Office of Air Quality (OAQ) and the Evansville Environmental Protection Agency. The information describing the source contained in conditions A.1 through A.3 is descriptive information and does not constitute enforceable conditions. However, the Permittee should be aware that a physical change or a change in the method of operation that may render this descriptive information obsolete or inaccurate may trigger requirements for the Permittee to obtain additional permits or seek modification of this permit pursuant to 326 IAC 2, or change other applicable requirements presented in the permit application.

A.1 General Information [326 IAC 2-8-3(b)]

The Permittee owns and operates a stationary operation of a bulk petroleum product storage and transfer terminal

Permittee Name: TransMontaigne Product Services, Inc. (formerly TransMontaigne Terminaling, Inc. - Evansville Terminal)
Authorized individual: Mr. Dudley Tarlton, Vice President
Source Address: 2630 Broadway Avenue, Evansville, IN 47712
Mailing Address: P. O. Box 5660, Denver, Colorado 80217
SIC Code: 4226
Source Location Status: Vanderburgh
County Status: Attainment for all criteria pollutants
Source Status: Federally Enforceable State Operating Permit (FESOP)
Minor Source, under PSD Rules;
Minor Source, Section 112 of the Clean Air Act

A.2 Emission Units and Pollution Control Equipment Summary [326 IAC 2-8-3(c)(3)]

This stationary source consists of the following emission units and pollution control devices:

- (a) Three (3) fixed cone roof tanks, identified as T-1, T-2 and T-3, each with a maximum storage capacity of 357,000 gallons of petroleum distillate (heating oil or diesel), and exhausting to stack V-1 (installed in 1938);
- (b) One (1) internal floating roof tank, identified as T-4, with a maximum storage capacity of 357,000 gallons of gasoline, and exhausting to stack V-4 (installed in 1938);
- (c) One (1) fixed cone roof tank, identified as T-5, with a maximum storage capacity of 357,000 gallons of petroleum distillate (diesel), and exhausting to stack V-5 (installed in 1938);
- (d) Two (2) fixed cone roof tanks, identified as T-6 and T-7, each with a maximum storage capacity of 189,000 gallons of petroleum distillate (diesel), and exhausting to stack V-6 (installed in 1938);
- (e) One (1) internal floating roof tank, identified as T-8, with a maximum storage capacity of 189,000 gallons of gasoline, and exhausting to stack V-8 (installed in 1938);
- (f) One (1) external floating roof tank, identified as T-9, with a maximum storage capacity of 1,260,000 gallons of gasoline, and exhausting to stack V-9 (installed in 1949);
- (g) One (1) external floating roof tank, identified as T-10, with a maximum storage capacity of 903,000 gallons of petroleum distillate (diesel), and exhausting to stack V-10 (installed in 1949);
- (h) One (1) fixed cone roof tank, identified as T-11, with a maximum storage capacity of 11,970 gallons of additive, and exhausting to stack V-11 (installed before 1973);
- (i) One (1) external floating roof tank, identified as T-12, with a maximum storage capacity of 378,000 gallons of petroleum distillate (diesel), and exhausting to stack V-12 (installed in 1936);
- (j) One (1) external floating roof tank, identified as T-13, with a maximum storage capacity of 252,000 gallons of gasoline, and exhausting to stack V-13 (installed in 1936);

- (k) One (1) external floating roof tank, identified as T-14, with a maximum storage capacity of 252,000 gallons of gasoline, and exhausting to stack V-14 (installed in 1936);
- (l) One (1) internal floating roof tank, identified as T-15, with a maximum storage capacity of 357,000 gallons of petroleum distillate (diesel), and exhausting to stack V-15 (installed in 1936);
- (m) One (1) internal floating roof tank, identified as T-16, with a maximum storage capacity of 252,000 gallons of petroleum distillate (diesel), and exhausting to stack V-16 (installed in 1936);
- (n) One (1) internal floating roof tank, identified as T-17, with a maximum storage capacity of 823,200 gallons of gasoline, and exhausting to stack V-17 (installed in 1954);
- (o) One (1) internal floating roof tank, identified as T-18, with a maximum storage capacity of 823,200 gallons of gasoline, and exhausting to stack V-18 (installed in 1954);
- (p) One (1) internal floating roof tank, identified as T-19, with a maximum storage capacity of 613,200 gallons of gasoline, and exhausting to stack V-19 (installed in 1954);
- (q) One (1) fixed cone roof tank, identified as T-20, with a maximum storage capacity of 613,200 gallons of petroleum distillate (diesel), and exhausting to stack V-20 (installed in 1954);
- (r) One (1) internal floating roof tank, identified as T-21, with a maximum storage capacity of 823,200 gallons of gasoline, and exhausting to stack V-21 (installed in 1970);
- (s) Two (2) fixed cone roof tanks, identified as T-22 and T-24, each with a maximum storage capacity of 21,000 gallons of additive, and exhausting to stack V-22 and T-24 (installed before 1973);
- (t) One (1) north tank truck loading rack, identified as L-25, used to load distillates or jet kerosene only, equipped with five (5) arms, with a maximum loading capacity of 252 million gallons per year of petroleum products, which include gasoline and distillates, utilizing a vapor flare (C-1) with a maximum heat input rate of 20 million British thermal units per hour (mmBtu/hr) for VOC control, and exhausting to stack V-25 (installed after December 17, 1980); and
- (u) One (1) south tank truck loading rack, identified as L-26, used to load distillates or jet kerosene only, equipped with five (5) arms, with a maximum loading capacity of 252 million gallons per year of petroleum products, which include gasoline and distillates, utilizing a vapor combustor (C-2) with a maximum heat input rate of 53.3 mmBtu/hr for VOC control, and exhausting to stack V-26 (installed after December 17, 1980).

A.3 Insignificant Activities [326 IAC 2-7-1(21)] [326 IAC 2-8-3(c)(3)(I)]

This stationary source also includes the following insignificant activities, as defined in 326 IAC 2-7-1(21):

- (a) Paved and unpaved roads and parking lots with public access.
- (b) One (1) vertical cone roof diesel additive storage tank, identified as Tank #26, with a maximum storage capacity of 1,000 gallons.
- (c) One (1) cone roof gasoline additive storage tank, designated as Tank #27, with a maximum storage capacity of 8000 gallons.
- (d) Distillate barge loading operations
- (e) One (1) red dye storage tank, identified as Tank #25, with a maximum storage capacity of 350 gallons.
- (f) One (1) additive storage tank, designated as Tank #23, with a maximum storage capacity of 1100 gallons.

A.4 FESOP Applicability [326 IAC 2-8-2]

This stationary source, otherwise required to have a Part 70 permit as described in 326 IAC 2-7-2(a), has applied to the Indiana Department of Environmental Management (IDEM), Office of Air Quality (OAQ) for a Federally Enforceable State Operating Permit (FESOP).

A.5 Prior Permits Superseded [326 IAC 2-1.1-9.5]

- (a) All terms and conditions of previous permits issued pursuant to permitting programs approved into the state implementation plan have been either
- (1) incorporated as originally stated,
 - (2) revised, or
 - (3) deleted
