SSOA S: 097-16839-00444

Dear Mr. Ruemmele:

Indiana Heart Hospital was issued a Source Specific Operating Agreement (SSOA) on June 4, 2003 for fuel combustion units. A letter requesting the addition of an additional gas fired boiler was received on January 19, 2005. Based on the data submitted and the provisions in 326 IAC 2, it has been determined that all your emission units including the new unit (2.7 MMBtu/hr boiler), located at 8075 North Shadeland Avenue, Indianapolis, Indiana 46250, have met the criteria required to obtain a Source Specific Operating Agreement. The permit is hereby administratively amended as follows:

(Bolded language has been added, and the language with a strike line through has been deleted)

Based on the data submitted and the provisions in 326 IAC 2, it has been determined that your source consisting of ~~three (3)~~ **four (4) boilers** fueled by No. 2 distillate fuel and natural gas, one (1) boiler fueled by natural gas with a combined maximum heat input capacity of ~~39.76~~ **42.46** million Btu per hour (MMBtu/hr) and (1) emergency generator fueled by No. 2 distillate fuel with a maximum heat input capacity of 4.7 million Btu per hour (MMBtu/hr), located at 8075 North Shadeland Avenue, Indianapolis, Indiana 46250, has met the criteria required to obtain a Source Specific Operating Agreement.

All other conditions of the permit shall remain unchanged and in effect. Please attach a copy of this amendment to the front of the original permit.

Dear Mr. Ruemmele:

Your application for Source Specific Operation Status was received on January 19, 2005, and has been reviewed. Based on the data submitted and the provisions in 326 IAC 2, it has been determined that your source consisting of four (4) boilers fueled by No. 2 distillate fuel and natural gas, one (1) boiler fueled by natural gas with a combined maximum heat input capacity of 42.46 million Btu per hour (MMBtu/hr) and (1) emergency generator fueled by No. 2 distillate fuel with a maximum heat input capacity of 4.7 million Btu per hour (MMBtu/hr), located at 8075 North Shadeland Avenue, Indianapolis, Indiana 46250, has met the criteria required to obtain a Source Specific Operating Agreement. All terms and conditions in previous registrations and permits are no longer in effect.

Pursuant to IC 4-21.5-3-5(a) and (b), approval of this Source Specific Operating Agreement shall not be effective until fifteen (15) days from the date of this letter.

The facilities and processes of this source are hereby granted the Source Specific Operating Agreement provided that the following requirements of 326 IAC 2-9 are satisfied:

Section A: External Combustion Operation: [326 IAC 2-9-13]

1. The visible emissions from the external combustion unit shall not exceed twenty percent (20%) opacity in twenty-four (24) consecutive readings in a six (6) minute period. The opacity shall be determined using 40 CFR 60, Appendix A, Method 9.
2. The fuel usage for the units listed in this Source Specific Operating Agreement (SSOA) shall be limited as follows:
 - (a) less than one thousand one hundred fifteen million cubic feet (1115 MMcf) of natural gas per year, based on a straight twelve (12) month total, and
 - (b) less than one hundred eighty-seven (187) kilogallons of #1 or #2 distillate oil, or any combination of #1 or #2 oil, per year, based on a straight twelve (12) month total.

These records shall be kept for a minimum period of five (5) years, and made available upon request of the Indiana Department of Environmental Management, Office of Air Quality (OAQ) and Indianapolis Office of Environmental Services (OES).

Section B: General Requirements: [326 IAC 2-9-1]

1. The source shall provide an annual notice to the commissioner, stating that the source is in operation, and certifying that its operations are in compliance with the requirements of this Source Specific Operating Agreement. The above annual notice shall be submitted to:

**Compliance Data Section

100 North Senate Avenue
Indianapolis, IN 46204**

and

no later than January 30 of each year, with the annual notice being submitted in the format attached.

2. Any exceedance of any requirement contained in this operating agreement shall be reported, in writing, within one (1) week of its occurrence. Said report shall include information on the actions taken to correct the exceedance, including measures to reduce emissions, in order to comply with the established limits. If an exceedance is the result of a malfunction, then the provisions of 326 IAC 1-6 apply.
3. Pursuant to 326 IAC 2-9-1(i), the owner or operator is hereby notified that this operating agreement does not relieve the permittee of the responsibility to comply with the provisions of any applicable federal, state, or local rules, or any New Source Performance Standards (NSPS), 40 CFR Part 60, or National Emission Standards for Hazardous Air Pollutants (NESHAP), 40 CFR Part 61.

Any change or modification which will alter operations in such a way that it will no longer comply with the applicable restrictions and conditions of this operating agreement, must obtain the appropriate approval from the OAQ and the OES under 326 IAC 2-5.1, 326 IAC 2-5.5, 326 IAC 2-6.1, 326 IAC 2-2, 326 IAC 2-3, 326 IAC 2-7, and 326 IAC 2-8, before such change may occur.
