Re: 177-20464-00051
First Administrative Amendment to
FESOP 177-16240-00051

Dear Ms. Boggs:

Holland Colors Americas Inc., located at 1501 Progress Drive, Richmond, IN 47374, was issued a FESOP on July 2, 2004 for operation of a stationary colorant manufacturing plant. A letter requesting a change to the FESOP was received on December 7, 2004. The source requested that permit be updated to reflect that a new building being constructed at the source will have the following street address: 1500 NW O Street, Richmond, IN, 47374. In addition, the source requested that the facility description Unit 8 be updated to include a backup dust collector. Inclusion of these items in the permit qualifies as a "revision to descriptive information where the revision will not trigger a new applicable requirement or violate a permit term", under 326 IAC 2-8-10, Administrative Amendment.

In the above mentioned letter, the source also stated that a heat exhaust would be installed in the roof of the new building and that an air makeup opening would be installed in the side of the new building. Pursuant to the provisions of 326 IAC 2-7-11(a)(7), no revision of the permit is necessary to accommodate these changes, because these changes can be classified as insignificant activities under 326 IAC 2-7-1(21)(B) that are not specifically regulated.

Pursuant to the provisions of 326 IAC 2-8-10, Sections A.1, A.2, and D.1 of the permit are hereby administratively amended as follows with new language **bolded**:
