### Notice of Decision – Approval

Please be advised that on behalf of the Commissioner of the Department of Environmental Management, I have issued a decision regarding the enclosed matter. Pursuant to 326 IAC 2, this approval was effective immediately upon submittal of the application.

If you wish to challenge this decision, IC 4-21.5-3-7 requires that you file a petition for administrative review. This petition may include a request for stay of effectiveness and must be submitted to the Office of Environmental Adjudication, 100 North Senate Avenue, Government Center North, Room 1049, Indianapolis, IN 46204, **within eighteen (18) calendar days from the mailing of this notice**. The filing of a petition for administrative review is complete on the earliest of the following dates that apply to the filing:

- (1) the date the document is delivered to the Office of Environmental Adjudication (OEA);
- (2) the date of the postmark on the envelope containing the document, if the document is mailed to OEA by U.S. mail; or
- (3) The date on which the document is deposited with a private carrier, as shown by receipt issued by the carrier, if the document is sent to the OEA by private carrier.

The petition must include facts demonstrating that you are either the applicant, a person aggrieved or adversely affected by the decision or otherwise entitled to review by law. Please identify the permit, decision, or other order for which you seek review by permit number, name of the applicant, location, date of this notice and all of the following:

- (1) the name and address of the person making the request;
- (2) the interest of the person making the request;
- (3) identification of any persons represented by the person making the request;
- (4) the reasons, with particularity, for the request;
- (5) the issues, with particularity, proposed for considerations at any hearing; and
- (6) identification of the terms and conditions which, in the judgment of the person making the request, would be appropriate in the case in question to satisfy the requirements of the law governing documents of the type issued by the Commissioner.

If you have technical questions regarding the enclosed documents, please contact the Office of Air Quality, Permits Branch at (317) 233-0178. Callers from within Indiana may call toll-free at 1-800-451-6027, ext. 3-0178.

Hartford City, IN 47348

Re: 009-20669-00008  
Fourth Administrative Amendment to  
Part 70 Permit T009-6492-00008

Dear Mr. Stiehl:

Venture Holdings Corporation was issued a Part 70 operation permit on December 28, 2000 for a stationary plastic automotive parts and components manufacturing plant located at 1701 West McDonald Street, Hartford City, Indiana 47348. A letter requesting a change to the permit was received on February 3, 2005. The source requested that one (1) electric softening oven (EO2) and one (1) compression molding press (P12), be added to permit as insignificant activities, since the potential uncontrolled emissions meet the exemption levels specified in 326 IAC 2-1.1-3(e)(1) or 326 IAC 2-7-1(21)(A), whichever is lower. The inclusion of these emission units in the permit each qualify as an "incorporation of an insignificant activity as defined in 326 IAC 2-7-1(21)," under 326 IAC 2-7-11, Administrative Permit Amendments. Pursuant to the provisions of 326 IAC 2-7-11, the permit is hereby administratively amended as follows with deleted language as ~~strikeouts~~ and new language **bolded**:

A.3 Insignificant Activities [326 IAC 2-7-1(21)] [326 IAC 2-7-4(c)] [326 IAC 2-7-5(15)]

This stationary source also includes the following insignificant activities, as defined in 326 IAC 2-7-1(21):

- (e) ~~Two (2)~~ **One (1)** compression molding presses, identified as P11 **and P12, each with a capacity of** 250 tons, with emissions below exemption levels in 326 IAC 2-1.1-3.
- (f) ~~Two (2)~~ **One (1)** electric softening ovens, **identified as EO1 and EO2.**

All other conditions of the permit shall remain unchanged and in effect. Please attach a copy of this amendment and the following revised permit pages to the front of the original permit. This decision is subject to the Indiana Administrative Orders and Procedures Act - IC 4-21.5-3-5. If you have any questions on this matter, please contact Nathan Bell, at (800) 451-6027, press 0 and ask for Nathan Bell or extension (4-3350), or dial (317) 234-3350.

Sincerely,

Origin signed by

Paul Dubenetzky, Chief

## PART 70 OPERATING PERMIT OFFICE OF AIR QUALITY

**Venture Corporation  
 1701 West McDonald Street  
 Hartford City, Indiana 47348**

(herein known as the Permittee) is hereby authorized to operate subject to the conditions contained herein, the source described in Section A (Source Summary) of this permit.

This permit is issued in accordance with 326 IAC 2 and 40 CFR Part 70 Appendix A and contains the conditions and provisions specified in 326 IAC 2-7 as required by 42 U.S.C. 7401, et. seq. (Clean Air Act as amended by the 1990 Clean Air Act Amendments), 40 CFR Part 70.6, IC 13-15 and IC 13-17.

Operation Permit No.: T009-6492-00008	
Issued by: Original signed by Janet G. McCabe, Assistant Commissioner Office of Air Quality	Issuance Date: December 28, 2000 Expiration Date: December 28, 2005
First Administrative Amendment No. 009-9608-00008 First Significant Permit Modification No. 009-15641-00008 Second Administrative Amendment No. 009-16036-00008 Third Administrative Amendment No. 009-17116-00008	Issuance Date: November 4, 1998 Issuance Date: April 7, 2002 Issuance Date: October 4, 2002 Issuance Date: April 25, 2003
Fourth Administrative Amendment No. 009-20669-00008	Pages Affected: 5
Issued by: Origin signed by Paul Dubenetzky, Branch Chief Office of Air Quality	Issuance Date: March 14, 2005

- (i) Two (2) thermal fluid heaters, identified as HO1 and HO2, constructed in 1985, exhausting to stacks S1 and S2, capacity: 3.1 million British thermal units per hour, each.
- (j) One (1) gasket seal oven, identified as OV1, constructed in 1994, exhausting to stack S3, capacity: 0.4 million British thermal units per hour.
- (k) Air make up heaters, identified as AH1, constructed in 1985, capacity: 23.25 million British thermal units per hour, total.
- (l) Two (2) SRIM molding presses, identified as P9 and P10, constructed in 2001, each with a maximum unit capacity of 30 parts per hour.

A.3 Insignificant Activities [326 IAC 2-7-1(21)] [326 IAC 2-7-4(c)] [326 IAC 2-7-5(15)]

This stationary source also includes the following insignificant activities, as defined in 326 IAC 2-7-1(21):

- (a) Grinding and machining operations controlled with fabric filters, scrubbers, mist collectors, wet collectors and electrostatic precipitators with a design grain loading of less than or equal to 0.03 grains per actual cubic foot and a gas flow rate less than or equal to 4,000 actual cubic feet per minute, including the following: deburring; buffing; polishing; abrasive blasting; pneumatic conveying; and woodworking operations.
- (b) Activities with emissions equal to or less than the significant activity thresholds: fume and mist emissions associated with heat transfer fluid miscellaneous drips from piping or transfer equipment; fugitive dust associated with road traffic or staging area traffic on the stone surface locations; particulate matter (PM10) from the blower exhaust at the vacuum system serving the press building plastic part drilling stations.
- (c) Degreasing operations that do not exceed 145 gallons per 12 months, except if subject to 326 IAC 20-6.
- (d) A cartridge dust collector, identified as VS-2, with an air flow rate of 17,000 actual cubic feet per minute, exhausting at stack identified as VS-2.
- (e) Two (2) compression molding presses, identified as P11 and P12, each with a capacity of 250 tons, with emissions below exemption levels in 326 IAC 2-1.1-3.
- (f) Two (2) electric softening ovens, identified as EO1 and EO2.

A.4 Part 70 Permit Applicability [326 IAC 2-7-2]

This stationary source is required to have a Part 70 permit by 326 IAC 2-7-2 (Applicability) because:

- (a) It is a major source, as defined in 326 IAC 2-7-1(22);
- (b) It is a source in a source category designated by the United States Environmental Protection Agency (U.S. EPA) under 40 CFR 70.3 (Part 70 - Applicability).
