Dear Jason May:

On February 10, 2005, the Office of Air Quality (OAQ) received an interim minor permit revision petition from Ag Producer Services, Cargill, Inc. located at Uniontown Road in Mount Vernon, Indiana. Based on the data and information submitted in the petition and the provisions in 326 IAC 2-13-1, this interim minor permit revision petition is hereby approved for:

- a) Two 1.4 million bushel storage piles.
- b) A 20,000 bushels per hour truck dump with a cyclone.
- c) A 20,000 bushels per hour enclosed conveyor system connecting the truck dump to the storage piles.
- d) A 10,000 bushes per hour dry leg.

Detailed conditions will be specified in the final minor permit revision 129-20765-00001. This interim minor permit revision expires on the effective date of the final minor permit revision. This interim minor permit revision may be revoked after its effective date upon a written finding by the OAQ that any of the reasons for denial in 326 IAC 2-13-1(h) exist or if the final minor permit revision is denied. The facilities subject to this approval may not operate until the final minor permit revision is issued by OAQ.

Sincerely,
