Re: 097-20959-00354  
Revocation of CP 0975391-01

Dear Mr. Overton:

The letter from Astbury Environmental Engineering, Incorporated as it pertains to the permit for Village Pantry, received on January 19, 2005, has been reviewed. This letter requested that Construction Permit 975391-01, issued for your source consisting of a soil remediation system located 5190 North Franklin Road, Indianapolis, IN 46226, be revoked. The reason for this revocation request is that the soil remediation system is no longer in operation as of July 2004.

The Construction Permit CP 975391-01, issued on March 24, 1997 is hereby revoked. Pursuant to IC 4-21.5-3-5(a) and (b), this revocation letter is effective in eighteen (18) days from the date of this letter.

Any construction or modification that would result in potential to emit greater than exemption levels, as specified in 326 IAC 2-1.1-3 (Exemptions) shall be subject to New Source Review (NSR) and must be approved by the Indiana Department of Environmental Management, Office of Air Quality (OAQ) and Indianapolis Office of Environmental Services (OES) before such construction or modification may occur.

If you have any questions regarding this revocation, please contact Mr. Warner Myron Waters at (317) 327-2182 or [wwaters@indygov.org](mailto:wwaters@indygov.org)

Sincerely,

Original Signed by:

Felicia A. Robinson
