Re: 003-21144-00283
Administrative Amendment to
FESOP 003-15596-00283

Dear Mr. Winters,

OmniSource Corporation was issued a federally enforceable state operating permit (FESOP) on September 18, 2002 for a scrap metal recycling operation located at 2511 Taylor Street, Fort Wayne, IN 46802-4616. A letter requesting a change was received on April 27, 2005. The change involved replacing baghouse C-1 with an upgraded baghouse.

The new pollution control device does not result in an increase in the potential to emit any regulated pollutant greater than the thresholds in 326 IAC 2-1.1-3(d)(1). Also, the new pollution control device does not require a change in the methods to demonstrate or monitor compliance.

Pursuant to the provisions of 326 IAC 2-8-10(a)(6), the change is hereby acknowledged. No revision of the permit was necessary to accommodate the change. All conditions of the permit shall remain unchanged and in effect. Please attach a copy of this letter to the front of the original permit.

This decision is subject to the Indiana Administrative Orders and Procedures Act - IC 4-21.5-3-5. If you have any questions on this matter, please contact Mr. Allen R. Davidson at (800) 451-6027, press 0 and ask for extension 3-5693, or dial (317) 233-5693.

Sincerely,
