Rotary Dryer Decommissioned effective August 11, 2004

Dear Mr. Schoonover:

On August 14, 2003, the Indiana Department of Environmental Management (IDEM), Office of Air Quality (OAQ) received an application from Intrametco Processing, Inc. for a Minor Source Operating Permit (MSOP) to operate a secondary aluminum plant located at 1901 West Louisiana, Evansville, Indiana 47710. IDEM, OAQ assigned the processing of your application to Eastern Research Group, Inc. (ERG).

On January 25, 2005, Ms. Sanober Durrani of ERG received an e-mail from Ms. Leslie Sams of AQS, LLC, the source's agent, that requested IDEM, OAQ send a letter to Intrametco Processing, Inc. acknowledging the decommissioning of the 8.0 MMBtu per hour natural gas-fired rotary dryer (identified as unit EU3). Ms. Sams had previously informed IDEM, OAQ in an e-mail sent to ERG on August 11, 2004 that your company had agreed to decommission this rotary dryer at a meeting held earlier that same day with the United States Environmental Protection Agency (U.S. EPA). Since the decommissioning of the rotary dryer was effective on August 11, 2004, IDEM, OAQ has not included this unit in the MSOP currently being prepared for your Evansville plant.

Mr. Derrick Ohning and Ms. Roberta Smith, IDEM, OAQ compliance inspectors, visited your plant on August 25, 2004 and confirmed that the rotary dryer has been decommissioned on July 29, 2005 by disconnecting the natural gas fuel line.

If you have questions regarding this letter, please contact Ms. Sanobar Durrani at Eastern Research Group, Inc., 1600 Perimeter Park Drive, Morrisville, NC 27560 or call (919) 468-7810. Please specify Review Request No.163-21549-00071 on all inquiries and correspondence. Questions may also be directed to Mr. Duane Van Laningham at Indiana Department of Environmental Management (IDEM), Office of Air Quality, 100 North Senate Avenue, Indianapolis, Indiana 46204 or call (800) 451- 6027 and ask for extension 3-6878 or dial (317) 233-6878.

Sincerely,
