Dear Mr. Hamner:

Re: Experimental Operation
EO No. 089-21882-00227

On October 18, 2005, Dover Chemical - Hammond Works, Hammond, Indiana, submitted a letter informing the Office of Air Quality (OAQ) of the intention to perform an additional experimental trial for the experimental production of Alkylated Diphenylamine (ADPA). The IDEM, OAQ, agrees that a second trial exemption is warranted due to the proposed increase in batch size, the relocation of the ADPA batch step operations from Building 4 to Building 3 with some accompanying equipment changes, and the need to experiment further with some of the process steps to try to determine a reliable ADPA production process with consistent results.

Experimental Operation General Information

Unit: Batch step operation in Building 3
Location of the Operation: 3000 Sheffield Avenue, Hammond, Indiana
County: Lake
County Status: Nonattainment for ozone
Purpose of the Trial: Determine operation details for ADPA production, and perform emission testing

Duration of the Operation: Less than thirty (30) days actual operation time
Testing parameters: volatile organic compounds (VOC)

Applicable Requirements

Pursuant to 326 IAC 2-1.1-3(h)(3), the above mentioned temporary operation and experimental trial shall satisfy the following requirements:

(2) The operation is not a major source or modification as defined by 326 IAC 2-2, 326 IAC 2-3, or 326 IAC 2-7. [326 IAC 2-1.1-3(g)(3)(B)]
(3) The purpose of the operation is to:
(a) collect data for experimental purposes, including, but not limited to, process improvements, new product development, and pollution prevention; or [326 IAC 2-1.1-3(g)(3)(C)(i)]

- (b) temporarily conduct an operation not considered part of the normal operation or production of the facility or source. [326 IAC 2-1.1-3(g)(3)(C)(ii)]
- (4) The duration of the temporary operation or experimental trial is less than thirty (30) days of total operating time. [326 IAC 2-1.1-3(g)(3)(D)]
- (5) The owner or operator shall submit a report containing the following information, at most seven (7) days after concluding the temporary operation or experimental trial:
[326 IAC 2-1.1-3(g)(3)(G)]
 - (a) The actual start date of the construction, reconstruction, or modification.
 - (b) The duration of the temporary operation or experimental trial.
 - (c) The actual emissions occurring during the temporary operation or experimental trial.

Exemption Expiration Date

This approval expires after thirty (30) days of actual operating time of the experimental operation.
