Re: Response to Review Request 037-23706-00100  
Plant ID 037-00100

Dear Mr. Kapellusch,

Kimball International, Inc., which operates a wood furniture manufacturing plant located at 1037 East 15th Street, Jasper, IN 47549-1007, submitted a review request on September 29, 2006. The request was submitted to receive approval to use their pyrolysis furnace to burn dried paint away from metal hangars, racks and hooks that are part of their conveyor systems. The request was made in accordance with Condition D.10.2(e) of Part 70 Operating Permit 037-7356-00100, which requires that the furnace only burn waste approved by the commissioner.

The pyrolysis furnace was previously approved to burn dried paint from parts that are part of their conveyor systems. The dried paint that is requested to be burned away will not have different emissions from the dried paint already approved to be burned away by the pyrolysis furnace, therefore the request is approved. No change to Part 70 Operating Permit 037-7356-00100 is necessary to accommodate the change.

Questions should be directed to Allen R. Davidson, OAQ, 100 North Senate Avenue, Room N1001, Indianapolis, IN 46204-2222, or call (800) 451-6027, press 0 and ask for extension 3-5693, or dial (317) 233-5693.

Sincerely,
