Mr. Doug Hasselbring  
Consolidated Grain and Barge Co. – Lyles Station  
5130 Port Road  
Jeffersonville, Indiana 47130

Re: Permit by Rule Status  
051-23803-00006

Dear Mr. Hasselbring:

The application from Consolidated Grain and Barge Co., was received on October 19, 2006. Based on the data and information submitted and the provisions of 326 IAC 2-10 (Permit by Rule), Consolidated Grain and Barge Co. – Lyles Station states that the grain handling facility, located at RR 3, Princeton, Indiana, satisfies the criteria to operate under the Permit by Rule provisions.

Pursuant to 326 IAC 2-10 (Permit by Rule), this source shall comply with the following conditions:

- (a) The source limits actual emissions for every twelve (12) month period to less than twenty percent (20%) of any threshold for a major threshold source of the following:
  - (1) Regulated air pollutants.
  - (2) Hazardous air pollutants, as defined in Section 112 of the Clean Air Act. [326 IAC 2-10-3.1(a)(1) and (2)]
- (b) The source does not rely on air pollution control equipment to comply with the above-mentioned limitations. [326 IAC 2-10-3.1(b)]
- (c) Not later than thirty (30) days after receipt of written request by the Indiana Department of Environmental Management (IDEM), Office of Air Quality (OAQ), or U.S. Environmental Protection Agency (EPA), the owner or operator shall demonstrate that the source is in compliance with the above-mentioned conditions. [326 IAC 2-10-4.1]
- (d) Compliance demonstration shall be based on actual emissions for the previous 12 months and may include, but is not limited to, fuel or material usage or production records. No other demonstration of compliance shall be required. [326 IAC 2-10-4.1]

This rule does not affect a source's requirement to comply with provisions of any other applicable federal, state, or local requirement, except as specifically provided in section 1 of this rule. A source subject to this rule shall be subject to applicable requirements for a major source, including 326 IAC 2-7, if:

- (a) at any time the source is not in compliance with the conditions provided in 326 IAC2-10-3.1 of this rule; or
- (b) the source does not timely or adequately demonstrate compliance with the conditions in section 3.1 of this rule as required under 326 IAC 2-10-4.1 of this rule.

Any change or modification which will alter operations in such a way that the source will no longer comply with 326 IAC 2-10 (Permit by Rule), must obtain the appropriate approval from the OAQ under 326 IAC 2-1.1, 326 IAC 2-2, 326 IAC 2-3, 326 IAC 2-7, 326 IAC 2-8, or 326 IAC 2-9 before such change may occur. This source may at any time apply for a state operating permit under 326 IAC 2-6.1, a Part 70 permit under 326 IAC 2-7, a FESOP under 326 IAC 2-8, or an operating agreement under 326 IAC 2-9, as applicable. [326 IAC 2-10-1(b)]

Any violation of 326 IAC 2-10 (Permit by Rule) may result in administrative or judicial enforcement proceedings under IC 13-30-3 and penalties under IC 13-30-4.

Sincerely,

Original signed by

Matthew W. Stuckey, Section Chief  
Permits Branch  
Office of Air Quality
