Re: Interim Significant Source Modification Petition Approval
023-24026I-00020

Dear Mr. Gilliland:

On February 20, 2007, the Office of Air Quality (OAQ) received an interim significant source modification petition from Frito Lay, Inc., located at 323 South CR 300 West, in Frankfort, Indiana for construction of a new chip production line.

Public notice of the interim significant source modification petition was published on February 21, 2007. The public comment period ended on March 7, 2007.

There were no comments received during the public comment period. This interim significant source modification petition expires on the effective date of the final significant source modification permit.

The interim significant source modification petition may be revoked after the effective date upon a written finding by the Indiana Department of Environmental Management (IDEM) that any of the reasons for denial in 326 IAC 2-13-1(h) exist or if the final significant source modification permit is denied. The IDEM has reviewed this interim significant source modification petition and has not found any such reason. The facilities specified in the interim significant source modification petition may not operate until the final significant source modification permit is issued by OAQ.

The interim significant source modification petition is federally enforceable. Detailed construction and operation conditions will be specified in the final significant source modification permit 023-24026-00020.

If you have any questions regarding this interim significant source modification petition, please contact Robert Henry, OAQ, 100 North Senate Avenue, MC 61-53, Indianapolis, Indiana, 46204-2251, or call at (800) 451-6027, and ask for Robert Henry or extension 4-5175, or dial (317) 234-5175.
