Notice of Decision – Approval

Please be advised that on behalf of the Commissioner of the Department of Environmental Management, I have issued a decision regarding the enclosed matter. Pursuant to 326 IAC 2, this approval was effective immediately upon submittal of the application.

If you wish to challenge this decision, IC 4-21.5-3-7 requires that you file a petition for administrative review. This petition may include a request for stay of effectiveness and must be submitted to the Office of Environmental Adjudication, 100 North Senate Avenue, Government Center North, Room 1049, Indianapolis, IN 46204, **within eighteen (18) calendar days from the mailing of this notice**. The filing of a petition for administrative review is complete on the earliest of the following dates that apply to the filing:

- (1) the date the document is delivered to the Office of Environmental Adjudication (OEA);
- (2) the date of the postmark on the envelope containing the document, if the document is mailed to OEA by U.S. mail; or
- (3) The date on which the document is deposited with a private carrier, as shown by receipt issued by the carrier, if the document is sent to the OEA by private carrier.

The petition must include facts demonstrating that you are either the applicant, a person aggrieved or adversely affected by the decision or otherwise entitled to review by law. Please identify the permit, decision, or other order for which you seek review by permit number, name of the applicant, location, date of this notice and all of the following:

- (1) the name and address of the person making the request;
- (2) the interest of the person making the request;
- (3) identification of any persons represented by the person making the request;
- (4) the reasons, with particularity, for the request;
- (5) the issues, with particularity, proposed for considerations at any hearing; and
- (6) identification of the terms and conditions which, in the judgment of the person making the request, would be appropriate in the case in question to satisfy the requirements of the law governing documents of the type issued by the Commissioner.

If you have technical questions regarding the enclosed documents, please contact the Office of Air Quality, Permits Branch at (317) 233-0178. Callers from within Indiana may call toll-free at 1-800-451-6027, ext. 3-0178.

Re: 085-24159-00038
First Notice-Only Change to
R085-16856-00038

Dear Mr. Parker:

Glasland Industries, Inc., d/b/a Splendor Boats was issued a Registration on May 29, 2003 for the operation of a fiberglass products manufacturing facility. An application from Glasland Industries, Inc., d/b/a Splendor Boats, received on January 4, 2007, has been reviewed. Glasland Industries, Inc., d/b/a Splendor Boats requests the name of the authorized individual be changed from Doyle Heckaman to Darren Parker and that Glasland Industries, Inc., d/b/a Splendor Boats be permitted to operate under the name of Splendor Boats, LLC.

Based on the requests submitted and the provisions in 326 IAC 2-5.5, it has been determined that the Glasland Industries, Inc., d/b/a Splendor Boats fiberglass products manufacturing source, located at 9526 South State Road 15, Silverlake, Indiana, will now be known as Splendor Boats, LLC, and the authorized individual is Darren Parker.

IDEM has decided to make a change to procedures related to the Authorized Individual. IDEM will no longer list the name or title of the Authorized Individual in permits.

This is a notice only change issued to this source. The source may continue to operate according to 326 IAC 2-5.5. All other conditions of the registration shall remain unchanged and in effect. Please find enclosed the revised registration.

This decision is subject to the Indiana Administrative Orders and Procedures Act - IC 4-21.5-3-5. If you have any questions on this matter, please contact Walter Habeeb, OAQ, 100 North Senate Avenue, Indianapolis, Indiana, 46204, or call at (800) 451-6027, and ask for Walter Habeeb or extension 2-8422, or dial (317) 232-8422.

Sincerely,

Re: 085-24159-00038
First Notice-Only Change to,
R085-16856-00038

Dear Mr. Parker:

Glasland Industries, Inc., d/b/a Splendor Boats was issued a Registered Construction and Operating Status approval on May 29, 2003. A letter requesting an amendment to registration 085-16856-00038 was received from Glasland Industries, Inc., d/b/a Splendor Boats, on January 4, 2007. Based on the requests submitted and the provisions in 326 IAC 2-5.5, it has been determined that the following fiberglass products manufacturing source, located at 9526 South State Road 15, Silverlake, Indiana, will now be known as Splendor Boats, LLC, and this facility is classified as registered:

- (a) One (1) chop application unit, identified as SV Chop 1, installed in 1977, exhausting to Stack SV Chop 1, equipped with dry particulate filters, using flow coat application, capacity: 0.15 roof vents per hour.
- (b) One (1) chop application unit, identified as SV Chop 2, installed in 1977, exhausting to Stack SV Chop 2, equipped with dry particulate filters, using flow coat application, capacity: 0.125 boats per hour.
- (c) One (1) chop application unit, identified as SV Chop 3, installed in 1977, exhausting to Stack SV Chop 3, equipped with dry particulate filters, using flow coat application, capacity: 1.25 fan shrouds per hour.
- (d) One (1) chop application unit, identified as SV Chop 4 Robotics, installed in 1977, exhausting to Stack SV Chop 4 Robotics, equipped with dry particulate filters, using robotic airless spray equipment, capacity: 1.25 fan shrouds per hour.
- (e) One (1) gelcoat application unit, identified as SV Gel 1, installed in 1977, exhausting to Stack SV Gel 1, equipped with dry particulate filters, using two (2) gelcoat guns, capacity: 0.15 roof vents per hour or 0.0125 boats per hour.
- (f) One (1) gelcoat application unit, identified as SV Gel 2 Robotics, installed in 1977, exhausting to Stack SV Gel 2 Robotics, equipped with dry particulate filters, using one (1) gelcoat gun, capacity: 1.25 fan shrouds per hour.
- (g) Twelve (12) radiant heaters, firing natural gas, rated at 0.1 million British thermal units per hour, each.

- (h) One (1) gas heater, firing natural gas, rated at 4.8 million British thermal units per hour.
- (i) One (1) wood shop, equipped with a 12" band saw and a 10" table saw, uncontrolled and exhausted internally.
- (j) Four (4) grinding operations:
 - (1) One grinding operation, identified as SV Grind Boats and Small Parts, exhausting to Stack SV Grind Boats and Small Parts, equipped with a dry particulate filter.
 - (2) One grinding operation, identified as SV Grind-1 Fan Shrouds, exhausting to Stack SV Grind-1 Fan Shrouds, equipped with a dry particulate filter.
 - (3) One grinding operation, identified as SV Grind-2 Fan Shrouds, exhausting to Stack SV Grind-2 Fan Shrouds, equipped with a dry particulate filter.
 - (4) A drill press and hand held tools.

The following conditions shall be applicable:

1. Pursuant to 326 IAC 5-1-2 (Opacity Limitations) except as provided in 326 IAC 5-1-3 (Temporary alternative opacity limitations), opacity shall meet the following:
 - (a) Opacity shall not exceed an average of forty percent (40%) in any one (1) six (6) minute averaging period as determined in 326 IAC 5-1-4.
 - (b) Opacity shall not exceed sixty percent (60%) for more than a cumulative total of 15 minutes (60 readings) in a 6-hour period as measured according to 40 CFR 60, Appendix A, Method 9 or fifteen (15) one (1) minute nonoverlapping integrated averages for a continuous opacity monitor in a six (6) hour period.
2. Any change or modification which may increase the potential to emit of total HAPs, VOC, PM or PM₁₀ to twenty five (25) tons per year, or a single HAP to ten (10) tons per year from this source shall require approval from IDEM, OAQ prior to making the change.
3. Pursuant to 326 IAC 6-3-2(d)(1), the chop application units (SV Chop 1, SV Chop 2, SV Chop 3 and SV Chop 4 Robotics) and the gelcoat application units (SV Gel 1 and SV Gel 2 Robotics) shall be controlled by a dry particulate filter, waterwash or an equivalent control device, except when using flow coat application, and the control device shall be operated in accordance with manufacturer's specifications.
4. Pursuant to 326 IAC 6-3-2(d)(2), if overspray from the chop application units (SV Chop 1, SV Chop 2, SV Chop 3 and SV Chop 4 Robotics) and/or the gelcoat application units (SV Gel 1 and SV Gel 2 Robotics) is visibly detected at the exhaust or accumulates on the ground, the source shall inspect the control device and do either of the following no later than four (4) hours after such observation:
 - (1) Repair the control device so that no overspray is visibly detectable at the exhaust or accumulates on the ground.
 - (2) Operate equipment so that no overspray is visibly detectable at the exhaust or accumulates on the ground.

If overspray is visibly detected, the source shall maintain a record of the action taken as a result of the inspection, any repairs of the control device, or change in operations, so that overspray is not visibly detected at the exhaust or accumulates on the ground. These records must be maintained for five (5) years.

This is a notice only change issued to this source. The source may continue to operate according to 326 IAC 2-5.5.

An authorized individual shall provide an annual notice to the Office of Air Quality that the source is in operation and in compliance with this registration pursuant to 326 IAC 2-5.5-4(a)(3). The annual notice shall be submitted to:

Compliance Branch
Office of Air Quality
100 North Senate Avenue
Indianapolis, IN 46204-2251

no later than March 1 of each year, with the annual notice being submitted in the format attached.

An application or notification shall be submitted in accordance with 326 IAC 2 to the Office of Air Quality (OAQ) if the source proposes to construct new emission units, modify existing emission units, or otherwise modify the source.

Sincerely,
