Re: Permit by Rule Status
083-24911-00039

Dear Mr. Renock:

On June 10, 2002, Lewis-Vincennes, Inc., was issued a Registration No. R083-15672-00039 for a stationary baked products manufacturing source, located at 3114 Old Decker Road Vincennes, Indiana (the source address is currently 2792 South Old Decker Road based on an address reassignment by the US Postal Service). On June 11, 2007, the Office of Air Quality (OAQ) received a letter from Lewis-Vincennes, Inc., stating their intent to operate under the Permit by Rule (PBR) provisions. The source provided updated emission calculations that demonstrated that the source-wide potential to emit VOC is now greater than the registration thresholds of 25 tons per year. Pursuant to 326 IAC 2-10-1(a), this source satisfies the criteria to operate under the Permit by Rule (PBR) provisions. Accordingly, Lewis-Vincennes, Inc., is now operating under a Permit by Rule No. 083-24911-00039 that supersedes Registration No. R083-15672-00039.

Based on the data and information submitted and the provisions of 326 IAC 2-10 (Permit by Rule), Lewis-Vincennes, Inc., states that the facility, located at 2792 South Old Decker Road satisfies the criteria to operate under the Permit by Rule provisions.

Pursuant to 326 IAC 2-10 (Permit by Rule), this source shall comply with the following conditions:

- (a) The source's total actual emissions for every 12-month period shall be limited to less than 20% of any threshold for the following:
 - (1) A major source of regulated air pollutants.
 - (2) A major source of hazardous air pollutants, as defined in Section 112 of the Clean Air Act. [326 IAC 2-10-3(1)]
- (b) The source shall not rely on air pollution control equipment to comply with the above-mentioned limitations. [326 IAC 2-10-3(2)]
- (c) Not later than thirty (30) days after receipt of written request by the Indiana Department of Environmental Management (IDEM), Office of Air Quality (OAQ), or U.S. Environmental Protection Agency (EPA), the owner or operator shall demonstrate that the source is in compliance with the above-mentioned conditions. [326 IAC 2-10-4]
- (d) Compliance demonstration shall be based on actual emissions for the previous 12 months and may include, but is not limited to, fuel or material usage or production records. No other demonstration of compliance shall be required. [326 IAC 2-10-4]

This source is hereby notified that this Permit by Rule approval does not relieve the source of the responsibility to comply with the provisions of any applicable federal, state, or local requirements, such as New source Performance Standards (NSPS), 40 CFR Part 60, or National Standards for Hazardous Air Pollutants (NESHAP), 40 CFR Part 61 or 40 CFR Part 63. [326 IAC 2-10-5]

Any change or modification which will alter operations in such a way that the source will no longer comply with 326 IAC 2-10 (Permit by Rule), must obtain the appropriate approval from the OAQ under 326 IAC 2-1.1, 326 IAC 2-2, 326 IAC 2-3, 326 IAC 2-7, 326 IAC 2-8, or 326 IAC 2-9 before such change may occur. This source may at any time apply for a state operating permit under 326 IAC 2-6.1, a Part 70 permit under 326 IAC 2-7, a FESOP under 326 IAC 2-8, or an operating agreement under 326 IAC 2-9, as applicable. [326 IAC 2-10-1(b)]

Any violation of 326 IAC 2-10 (Permit by Rule) may result in administrative or judicial enforcement proceedings under IC 13-30-3 and penalties under IC 13-30-4.

Sincerely/Original Signed By:

Nisha Sizemore, Chief
Permit Branch
