Re: Source Specific Operation Status
S097-25564-00631

Dear Mr. Cobb:

Your application for Source Specific Operation Status was received on November 16, 2007 and has been reviewed. Based on the data submitted and the provisions in 326 IAC 2, it has been determined that your emission source, a stationary automobile refinishing operation located at 4002 South Arlington Avenue, Indianapolis, IN 46203, has met the criteria required to obtain a Source Specific Operating Agreement.

Pursuant to IC 4-21.5-3-5(a) and (b), approval of this Source Specific Operating Agreement shall not be effective until fifteen (15) days from the date of this letter.

The facilities and processes of this source are hereby granted the Source Specific Operating Agreement provided that the following requirements of 326 IAC 2-9 are satisfied:

Section A: Automobile Refinishing Operation: [326 IAC 2-9-11]

1. The total amount of solvent containing material delivered to the automobile refinishing operation, less the amount of solvent containing material quantified by manifest as having been shipped off-site, shall not exceed two thousand (2,000) gallons per year.
2. The usage of condition 1 of this operating agreement shall be determined based on either:
 - (a) actual use records, or
 - (b) purchase records.
3. Particulate matter emissions shall be controlled by a dry filter system or an equivalent control device. The source shall operate the particulate control device at all times the automobile refinishing operation is in operation in accordance with the manufacturer's specifications. A source shall be considered in compliance with this requirement provided the overspray is not visibly detectable at the exhaust or accumulated on the rooftops or on the ground.
4. The source shall keep the following records from the automobile refinishing operation:
 - (a) purchase or use records of solvent containing materials,
 - (b) an annual summation on a calendar year basis of purchase or use records for all solvent containing materials, and
 - (c) the amount of waste solvent containing material manifested off-site.

These records shall be kept for a minimum period of five (5) years, and made available upon request of the Office of Air Quality (OAQ) or the City of Indianapolis Office of Environmental Services (OES).

If an exceedance is the result of a malfunction, then the provisions of 326 IAC 1-6 apply.
3. Pursuant to 326 IAC 2-9-1(i), the owner or operator is hereby notified that this operating agreement does not relieve the permittee of the responsibility to comply with the provisions of any applicable federal, state, or local rules, or any New Source Performance Standards (NSPS), 40 CFR Part 60, or National Emission Standards for Hazardous Air Pollutants (NESHAP), 40 CFR Part 61.

Any change or modification which will alter operations in such a way that it will no longer comply with the applicable restrictions and conditions of this operating agreement, must obtain the appropriate approval from the Office of Air Quality (OAQ) under 326 IAC 2-5.1, 326 IAC 2-5.5, 326 IAC 2-6.1, 326 IAC 2-2, 326 IAC 2-3, 326 IAC 2-7, and 326 IAC 2-8, before such change may occur.
