Re: Permit By Rule for Specific Source Categories Status  
023-25885-00022

Dear Mr. Boddicker:

On January 11, 2008, Land O' Lakes Purina Feed, LLC submitted an application to the Office of Air Quality (OAQ) indicating that the stationary animal feed manufacturing operation, located at 2472 W. State Road 28, Frankfort, IN 46401, satisfies the criteria to operate under the provisions of 326 IAC 2-11 (Permit by Rule for Specific Source Categories). Based on the information submitted and the provisions of 326 IAC 2-11-4 (Permit by Rule for Grain Processing or Milling), Land O' Lakes Purina Feed, LLC, is now operating under Permit by Rule (PBR) for Specific Source Categories Status.

Pursuant to 326 IAC 2-11-1 (General Provisions) and 326 IAC 2-11-4 (Permit by Rule for Grain Processing or Milling):

- (a) The Permittee shall comply with the following:
  - (1) The Permittee shall operate and properly maintain air pollution control devices at the source.
  - (2) The Permittee shall follow generally accepted industry work practices to minimize emissions of regulated air pollutants.
  - (3) The Permittee shall not discharge air pollutants so as to create a public nuisance.
  - (4) The Permittee shall limit annual throughput to less than or equal to 11,200,000 bushels.
- (b) Not later than thirty (30) days after receipt of written request by the Indiana Department of Environmental Management (IDEM), Office of Air Quality (OAQ), or U.S. Environmental Protection Agency (EPA), the owner or operator shall demonstrate that the source is in compliance with the above-mentioned throughput limit.
- (c) The Permittee may be subject to applicable requirements for a major source including 326 IAC 2-7, if:
  - (1) at any time the permittee is not in compliance with the conditions provided in an applicable section of this rule; or
  - (2) the Permittee does not timely or adequately demonstrate compliance with the conditions in an applicable section of this rule.

This source is hereby notified that this Permit by Rule for Specific Source Categories approval does not relieve the source of the responsibility to comply with the provisions of any applicable federal, state, or local requirements, such as New source Performance Standards (NSPS), 40 CFR Part 60, or National Standards for Hazardous Air Pollutants (NESHAP), 40 CFR Part 61 or 40 CFR Part 63.

Any change or modification which will alter operations in such a way that the source will no longer comply with 326 IAC 2-11 (Permit by Rule for Specific Source Categories), must obtain the appropriate approval from the OAQ under 326 IAC 2-1.1, 326 IAC 2-2, 326 IAC 2-3, 326 IAC 2-7, 326 IAC 2-8, or 326 IAC 2-9 before such change may occur. This source may at any time apply for a state operating permit under 326 IAC 2-6.1, a Part 70 permit under 326 IAC 2-7, 326 IAC 2-2, 326 IAC 2-3, a FESOP under 326 IAC 2-8, or an operating agreement under 326 IAC 2-9, as applicable.

Any violation of 326 IAC 2-11 (Permit by Rule for Specific Source Categories) may result in administrative or judicial enforcement proceedings under IC 13-30-3 and penalties under IC 13-30-4, IC 13-30-5, or IC 13-30-6.

If you have any questions on this matter, please contact Renee Traivaranon, of my staff, at 317-234-5615 or 1-800-451-6027, and ask for extension 4-5615.

Sincerely,
