### Notice of Decision – Approval

Please be advised that on behalf of the Commissioner of the Department of Environmental Management, I have issued a decision regarding the enclosed matter. Pursuant to 326 IAC 2, this approval was effective immediately upon submittal of the application.

If you wish to challenge this decision, IC 4-21.5-3-7 requires that you file a petition for administrative review. This petition may include a request for stay of effectiveness and must be submitted to the Office of Environmental Adjudication, 100 North Senate Avenue, Government Center North, Suite N 501E, Indianapolis, IN 46204, **within eighteen (18) calendar days from the mailing of this notice**. The filing of a petition for administrative review is complete on the earliest of the following dates that apply to the filing:

- (1) the date the document is delivered to the Office of Environmental Adjudication (OEA);
- (2) the date of the postmark on the envelope containing the document, if the document is mailed to OEA by U.S. mail; or
- (3) The date on which the document is deposited with a private carrier, as shown by receipt issued by the carrier, if the document is sent to the OEA by private carrier.

The petition must include facts demonstrating that you are either the applicant, a person aggrieved or adversely affected by the decision or otherwise entitled to review by law. Please identify the permit, decision, or other order for which you seek review by permit number, name of the applicant, location, date of this notice and all of the following:

- (1) the name and address of the person making the request;
- (2) the interest of the person making the request;
- (3) identification of any persons represented by the person making the request;
- (4) the reasons, with particularity, for the request;
- (5) the issues, with particularity, proposed for considerations at any hearing; and
- (6) identification of the terms and conditions which, in the judgment of the person making the request, would be appropriate in the case in question to satisfy the requirements of the law governing documents of the type issued by the Commissioner.

If you have technical questions regarding the enclosed documents, please contact the Office of Air Quality, Permits Branch at (317) 233-0178. Callers from within Indiana may call toll-free at 1-800-451-6027, ext. 3-0178.

Re: 085-25929-00031  
Administrative Amendment to:  
Significant Source Modification No. 085-20763-00031

Dear Mr. Cira:

On January 17, 2008, the Office of Air Quality (OAQ) received a letter from Rinker Boat Company, LLC requesting an extension to the 18-month construction deadline required in Significant Source Modification No. 085-20763-00031 issued on August 3, 2006. This extension was requested due to the downturn in the boat market. The significant source modification was issued for the construction of the following emission units:

- (a) one (1) fiberglass lay-up operation (P5-1), to be constructed in 2006, located in Plant 5, utilizing a flow coating and/or High Volume Low Pressure (HVLP) spray lay-up gel coat application system and a resin flow coating application system, producing a maximum of 1.5 fiberglass boats per hour, with dry filters for particulate matter overspray control, and exhausting through seven (7) wall mounted exhaust fans, identified as S5-16 through S5-22;
- (b) One (1) assembly glue application area (P5-2), to be constructed in 2006, located in Plant 5, using a High Volume Low Pressure (HVLP) spray application system, coating a maximum of 1.5 sets of boat parts per hour, exhausting inside the building; and
- (c) Enclosed grinding areas in Plant 5 for trimming/grinding boats after being removed from molds, to be constructed in 2006, with a maximum process weight rate of 3,140 pounds per hour, with one (1) Wheelabrator dust collector (DC-1) for control of PM and PM10 emissions, exhausting through a closed loop ventilation system.

The following insignificant activities will also be added to the source:

- (a) Natural gas-fired combustion sources with heat input equal to or less than ten million (10,000,000) Btu per hour:
  - (1) Two (2) space heaters, each rated at 0.10 MMBtu per hour, each exhausting through one (1) stack, identified as S5-1 and S5-2, respectively;
  - (2) One (1) space heater, rated at 0.112 MMBtu per hour, exhausting through one (1) stack, identified as S5-3;
  - (3) One (1) space heater, rated at 0.12 MMBtu per hour, exhausting through one (1) stack, identified as S5-4;

- (4) One (1) air make-up unit, rated at 2.54 MMBtu per hour, exhausting through one (1) stack, identified as S5-5;
  - (5) Two (2) space heaters, each rated at 0.30 MMBtu per hour, each exhausting through one (1) stack, identified as S5-6 and S5-7, respectively;
  - (6) One (1) air make-up unit, rated at 5.0 MMBtu per hour, exhausting through one (1) stack, identified as S5-8;
  - (7) One (1) space heater, rated at 0.30 MMBtu per hour, exhausting through one (1) stack, identified as S5-9;
  - (8) Two (2) space heaters, each rated at 0.25 MMBtu per hour, each exhausting through one (1) stack, identified as S5-10 and S5-11, respectively; and
  - (9) One (1) air make-up unit, rated at 5.0 MMBtu per hour, exhausting through one (1) stack, identified as S5-12.
- (b) Blowdown for any of the following: sight glass, boiler, compressors, pumps, and cooling tower;
- (c) Other categories with emissions below significant thresholds:
- (1) Wax compounds and mold release agents used in fiberglass lay-up operations in Plant 5;
  - (2) Hand buffing/polishing of boats in final cleaning operations; and
  - (3) A foam blowing operation using flotation foam with potential VOC emissions less than 1 ton per year.

No new state and federal rules are applicable to these emission units.

There are no pending Prevention of Significant Deterioration (PSD) increment consuming permits in process for the local area.

Therefore, OAQ agrees to extend the 18 month construction deadline by an additional 18 months, and will extend the timing to August 3, 2009. This document further amends permit 085-20763-00031 in a similar manner: Construction condition no. 4 deadline date for the commencement of construction shall be extended until August 3, 2009. If construction does not commence on or before this date, additional approval from the Office of Air Quality shall be required.

All other conditions of the permit shall remain unchanged and in effect. Please attach a copy of this amendment with the original source modification permit.

Sincerely/Original Signed By:

Donald F. Robin, P.E., Section Chief  
Permits Branch  
Office of Air Quality
