Re: 167-27158-00036
Review Request of
Part 70 Operating Permit T167-17590-00036

Dear Mr. Sutopo:

On September 5, 2008, an application was received by Vigo County Air Pollution Control from Tangent Rail Products, Inc, 2525 Prairieton Road, Terre Haute, IN 47808. Additional information was received by IDEM on November 18, 2008 and November 20, 2008. The purpose of the application was to notify IDEM Office of Air Quality (OAQ) of a storage tank replacement in the Tar Division. This tank is a direct replacement of an existing 15,841 gallon fixed roof above ground creosote storage tank, identified as Tank #4.

The current tank and the new replacement tank are not listed in the permit because they are considered an insignificant activity that is not specifically regulated. Tank# 4 has a capacity of 15,841 gallons which is less than 75 cubic meters or 19,812 gallons. Therefore; Tank# 4 is not subject to 40 CFR Part 60, Subpart Kb. Tank# 4 is considered exempt under 326 IAC 2-1.1-3(e)(1)(E). The replacement of Tank# 4 does not require prior approval according to 326 IAC 2-7-10.5(b). There are no specifically applicable requirements; therefore, it is not necessary to amend the Title V permit.

This decision is subject to the Indiana Administrative Orders and Procedures Act - IC 4-21.5-3-5. If you have any questions on this matter, please contact Jeff Scull at the Indiana Department Environmental Management, Office of Air Quality, 100 North Senate Avenue, MC 61-53 IGCN 1003, Indianapolis, Indiana 46204-2251 or by telephone at (317) 233-2628 or toll free at 1-800-451-6027 extension 3-2628.

Sincerely/Original Signed By:
