Re: First Registration Notice-Only Change
No. R097-27660-00625

Dear Mr. Birchler:

Central Indiana Redi Strip, Inc was issued a Registration No. R097-25245-00625 on February 19, 2008 for a stationary metal cleaning operation located at 4020 Millersville Road, Indianapolis, Indiana. On March 24, 2009, the Office of Air Quality (OAQ) received an application from the source requesting that the registration be revised to remove all requirements related to local air pollution control agencies. Local agencies no longer have effective authority to implement state and federal requirements for IDEM. Therefore, IDEM has removed all references to local agencies from the registration. IDEM has determined that this change to the registration will be processed as a notice-only change pursuant to 326 IAC 2-5.5-6.

The revised registration specifies that all reports, notices, applications, and any other required submittals shall be submitted to IDEM. The Permittee should note that the local agency could have its own requirements beyond the state and federal requirements contained in the registration. Please contact the local agency for further information.

IDEM, OAQ has decided to update the permit to the current model format.

The source shall continue to operate according to 326 IAC 2-5.5. Please find enclosed the revised registration. A copy of the registration is available on the Internet at: <http://www.in.gov/ai/appfiles/idem-caats/>. For additional information about air permits and how the public and interested parties can participate, refer to the IDEM's Guide for Citizen Participation and Permit Guide on the Internet at: www.idem.in.gov

This decision is subject to the Indiana Administrative Orders and Procedures Act - IC 4-21.5-3-5. If you have any questions on this matter, please contact Bruce Farrar, at (800) 451-6027, press 0 and ask for Bruce Farrar or extension 4-5401, or dial (317) 234-5401.

Interpolation of the data for the process weight rate up to 60,000 pounds per hour shall be accomplished by use of the equation:

$$E = 4.10 P^{0.67}$$

Where E = rate of emission in pounds per hour; and
P = process weight rate in tons per hour

Emission Unit	Process weight rate (tons per hour)	Allowable particulate emission rate (pounds per hour)
Blast Room #1	0.48	2.51
Blast Room #2	0.14	1.1
