Re: 097-27771-00179
First Notice-Only Change to
M 097-21094-00179

Dear Mr. Hughes:

Commercial Finishing Corporation was issued a Minor Source Operating Permit (MSOP) No. M097-21094-00179 on December 12, 2005 for a stationary miscellaneous metal parts surface coating operation source located at 4001 East 26th Street, Indianapolis, IN 46218. On April 14, 2009, the Office of Air Quality (OAQ) received an application from the source requesting that the permit be revised to remove all requirements related to local air pollution control agencies. Local agencies no longer have effective authority to implement state and federal requirements for IDEM. Therefore, IDEM has removed all references to local agencies from the permit. IDEM has determined that these changes to the permit will be processed as a notice-only change pursuant to 326 IAC 2-6.1-6(d).

The revised permit specifies that all reports, notices, applications, and any other required submittals shall be submitted to IDEM. The Permittee should note that the local agency could have its own requirements beyond the state and federal requirements contained in the permit. Please contact the local agency for further information.

Pursuant to the provisions of 326 IAC 2-6.1-6, the permit is hereby revised as follows with the deleted language as ~~strikeouts~~ and new language **bolded**.

1. All references to local agencies have been removed from the permit.
2. IDEM has implemented a procedure and no longer lists the title of the Authorized Individual (A.I.) in the permit document. Section A.1 has been revised as follows:

Authorized Individual: _____ President

3. In addition to remove the local agency, the telephone number listed in condition B.12 has been revised as follows:

B.12 Annual Fee Payment [326 IAC 2-1.1-7]

- (a) The Permittee shall pay annual fees to ~~OES~~ **IDEM, OAQ** within thirty (30) calendar days of receipt of a billing.
- (b) The Permittee may call the following telephone number: ~~317-327-2234~~ **1-800-451-6207 or 317-233-4230 (ask for OAQ, Billing, Licensing, and Training Section)**, to determine the appropriate permit fee.

4. Several of IDEM's branches and sections have been renamed. Therefore, IDEM has updated the addresses listed in the permit. References to the "Permits Branch" have been changed to "Permit Administration and Support Section". References to "Asbestos Section", "Compliance Data Section", "Air Compliance Section", and "Compliance Branch" have been changed to "Compliance and Enforcement Branch". Also, IDEM mailing addresses have been included a mail code (MC) of MC 61-53 IGCN 1003. Therefore, IDEM mailing addresses in this permit have been revised as follows:

- (c) a daily volume weighted average of 3.5 pounds of VOCs per gallon of coating excluding water delivered to a coating applicator for extreme coating application systems; and
- (d) a daily volume weighted average of 3.0 pounds of VOCs per gallon of coating excluding water delivered to a coating applicator for all other coating application systems.
- (e) Solvent sprayed from the application equipment during clean up or color changes shall be directed into containers. Such containers shall be closed as soon as such solvent spraying is complete, and the waste solvent shall be disposed of in such manner that evaporation is minimized.

D.1.2 Particulate [326 IAC 6-3-2(d)]

- (a) Particulate from the paint booths PB1, PB2, PB3, and PB6, shall be controlled by a dry particulate filter, and the Permittee shall operate the control device in accordance with manufacturer's specifications.
- (b) If overspray is visibly detected at the exhaust or accumulates on the ground, the Permittee shall inspect the control device and do either of the following no later than four (4) hours after such observation:

- (1) Repair control device so that no overspray is visibly detectable at the exhaust or accumulates on the ground.

- (a) Compliance with each of the applicable VOC content limit contained in condition D.1.1 shall be determined for each coating type pursuant to 326 IAC 8-1-4(a)(3) and 326 IAC 8-1-2(a) by preparing or obtaining from the manufacturer the copies of the "as supplied" and "as applied" VOC data sheets. IDEM, OAQ, reserves the authority to determine compliance using Method 24 in conjunction with the analytical procedures specified in 326 IAC 8-1-4.
- (b) When noncompliant coatings for any of the subdivisions of 326 IAC 8-2-9(d) are used for any particular day for a paint booth, compliance with that particular VOC content limit in condition D.1.1 shall be determined pursuant to 326 IAC 8-1-2(a)(7), using a volume weighted average of coatings on a daily basis. This volume weighted average for each of the subdivisions of 326 IAC 8-2-9(d) shall be determined by the following equation:

$$A = \left[\sum_{i=1}^N (C_i) \times U_i \right] / \sum U_i$$

Where:

A is the volume weighted average in pounds VOC per gallon less water as applied;

C is the VOC content of the coating in pounds VOC per gallon less water as applied; and

U is the usage rate of the coating in gallons per day.

Records maintained for (1) through (5) shall be taken as stated below and shall be complete and sufficient to establish compliance with each of the VOC usage limit established in condition D.1.1.
 - (1) The VOC content of each coating material and solvent used less water.
 - (2) The amount of coating material and solvent used on daily basis.

- (A) Records shall include purchase orders, invoices, and material safety data sheets (MSDS) necessary to verify the type and amount used.
 - (B) Solvent usage records shall differentiate between those added to coatings and those used as cleanup solvent.
 - (C) Records shall demonstrate which subdivision of 326 IAC 8-2-9(d) each coating falls under.
- (3) The volume weighted average VOC content of the coatings used for each day;
 - (4) The daily cleanup solvent usage; and
 - (5) The total VOC usage for each day.
- (b) All records shall be maintained in accordance with Section C - General Record Keeping Requirements, of this permit.
