Re: 169-28545-00060  
Review Request for MSOP No. 169-17189-00060

Dear Mr. Olson:

Metal Source, LLC was issued a Minor Source Operating Permit (MSOP) No. 169-17189-00060 on July 16, 2003 for a stationary secondary zinc and aluminum processing operation, located at 505 West Canal Street, Wabash, Indiana 46992. On July 16, 2008, the MSOP No. 169-17189-00060 expired and all permit conditions are no longer valid. On October 7, 2009, the Office of Air Quality (OAQ) received an application from the source requesting that the MSOP be revoked, since the source has ceased the operation. Since the source's permit has expired and is no longer valid, a revocation is not required.

Please be advised that since the MSOP No. 169-17189-00060 has expired and is no longer valid, the source will no longer have approval to operate any emission unit at this location. In addition, if there is a need in the future to operate any units at this location, construction and operation approval will be necessary pursuant to Indiana's New Source Review regulations.

A copy of the review request is available on the Internet at: <http://www.in.gov/ai/appfiles/idem-caats/>. For additional information about air permits and how the public and interested parties can participate, refer to the IDEM's Guide for Citizen Participation and Permit Guide on the Internet at: [www.idem.in.gov](http://www.idem.in.gov)

If there are any questions about this revocation, please contact Renee Traivaranon, at 317-234-5615 or at 1-800-451-6027 (ext 4-5615).

Sincerely,

Iryn Castillo, Section Chief  
Permits Branch
