November 30, 2009

RE: Review Request

Mr. Mann:

Saint-Gobain Containers, located at 524 East Center Street in Dunkirk, Indiana, submitted a Review Request on November 19, 2009. The letter was submitted to determine if Saint-Gobain Containers requires air pollution permit modifications for replacing the back-up fan.

Specifically, the modification involves the following:

- Replace existing back-up ejection air fan for Furnace No 1 at Saint-Gobain Containers' Dunkirk facility

The Permittee has stated in this review request that this modification will not increase the formation and subsequent emissions of any regulated pollutants and will not affect production capacity. IDEM, OAQ has not reviewed any additional information as part of this review.

IDEM has determined that a modification to the existing permit will not be necessary as the replacement of the fan with like equipment will not produce any additional emissions and will not require a descriptive change in the permit.

Questions should be directed to Michael S. Brooks, IDEM, Office of Air Quality, 100 North Senate Avenue, MC 61-53 IGCN 1003, Indianapolis, Indiana 46204-2251, or at (800) 451-6027, ask for extension (4-3533), or dial directly: (317) 234-3533.

Sincerely,

Chrystal Wagner, Section Chief
Permits Branch
Office of Air Quality
