RE: Crane Division, Naval Surface Warfare Center (NSWC Crane) / 101-28903I-00005

FROM: Matthew Stuckey, Branch Chief
Permits Branch
Office of Air Quality

Notice of Decision: Approval - Effective Immediately

Please be advised that on behalf of the Commissioner of the Department of Environmental Management, I have issued a decision regarding the enclosed matter. Pursuant to IC 13-15-5-3, this permit is effective immediately, unless a petition for stay of effectiveness is filed and granted according to IC 13-15-6-3, and may be revoked or modified in accordance with the provisions of IC 13-15-7-1.

If you wish to challenge this decision, IC 4-21.5-3 and IC 13-15-6-1 require that you file a petition for administrative review. This petition may include a request for stay of effectiveness and must be submitted to the Office of Environmental Adjudication, 100 North Senate Avenue, Government Center North, Suite N 501E, Indianapolis, IN 46204, **within eighteen (18) calendar days of the mailing of this notice**. The filing of a petition for administrative review is complete on the earliest of the following dates that apply to the filing:

- (1) the date the document is delivered to the Office of Environmental Adjudication (OEA);
- (2) the date of the postmark on the envelope containing the document, if the document is mailed to OEA by U.S. mail; or
- (3) The date on which the document is deposited with a private carrier, as shown by receipt issued by the carrier, if the document is sent to the OEA by private carrier.

The petition must include facts demonstrating that you are either the applicant, a person aggrieved or adversely affected by the decision or otherwise entitled to review by law. Please identify the permit, decision, or other order for which you seek review by permit number, name of the applicant, location, date of this notice and all of the following:

- (1) the name and address of the person making the request;
- (2) the interest of the person making the request;
- (3) identification of any persons represented by the person making the request;
- (4) the reasons, with particularity, for the request;
- (5) the issues, with particularity, proposed for considerations at any hearing; and
- (6) identification of the terms and conditions which, in the judgment of the person making the request, would be appropriate in the case in question to satisfy the requirements of the law governing documents of the type issued by the Commissioner.

If you have technical questions regarding the enclosed documents, please contact the Office of Air Quality, Permits Branch at (317) 233-0178. Callers from within Indiana may call toll-free at 1-800-451-6027, ext. 3-0178.

March 11, 2010

Re: Interim Significant Source Modification Petition Approval
101-28903I-00005

Dear Mr. Hunsicker:

On January 22, 2010, the Office of Air Quality (OAQ) received an interim Significant Source Modification petition from Crane Division, Naval Surface Warfare Center (NSWC Crane), located at 300 Highway 361, in Crane, Indiana for construction of a new particle mill/classifier unit, identified as CRN-0126-02-17-W24, controlled by a packed bed scrubber, located in Building 126.

A public notice of the interim Significant Source Modification petition was published in The Bedford Times on February 18, 2010. The public comment period ended on March 4, 2010.

There were no comments received during the public comment period. This interim Significant Source Modification petition is in effect on March 8, 2010 and expires on the effective date of the final Significant Source Modification permit.

The interim Significant Source Modification petition may be revoked after the effective date upon a written finding by the Indiana Department of Environmental Management (IDEM) that any of the reasons for denial in 326 IAC 2-13-1(h) exist or if the final Significant Source Modification permit is denied. The IDEM has reviewed this interim Significant Source Modification petition and has not found any such reason. The facilities subject to this approval may not operate until the final Significant Permit Modification is issued by OAQ.

The interim Significant Source Modification petition is federally enforceable. Detailed construction and operation conditions will be specified in the final Significant Source Modification permit 101-28903-00005.

If you have any questions regarding this interim Significant Source Modification petition, please contact Heath Hartley, OAQ, 100 North Senate Avenue, MC 61-53, Indianapolis, Indiana, 46204-2251, or call at (800) 451-6027, and ask for Heath Hartley or extension 2-8217, or dial 232-8217.

Sincerely,

Matthew Stuckey, Branch Chief

AFFIDAVIT

James M. Hunsicker, being first duly sworn upon oath, deposes and says:

1. I live in Dubois County, State of Indiana, and being of sound mind and over twenty-one (21) years of age, I am competent to give this affidavit.
2. I hold the position of Environmental Protection Manager for Crane Division, Naval Surface Warfare Center (NSWC Crane).
3. By virtue of my position with NSWC Crane, I have personal knowledge of the representations contained in this affidavit and am authorized to make these representations on behalf of NSWC Crane.
4. I, the undersigned, have submitted an interim significant source modification petition to the Office of Air Management for the construction of a mill-classifier in Building 126.
5. NSWC Crane recognizes the following risks:
 - (i) own financial risk;
 - (ii) that IDEM may require additional or different control technology for the final approval;
 - (iii) that IDEM may deny issuance of the final approval; and
 - (iv) any additional air permitting requirements.

Further Affiant Saith Not.

I affirm under the penalty for perjury that the representations contained in this affidavit are true, to the best of my information and belief.

SAIC-CRANE OPERATIONS
Interim Permit for Martin County

TIMES-MAIL
BEDFORD, INDIANA

pany, located at 300 Highway 361, Crane, Indiana 47522-5001, has made application to the Indiana Department of Environmental Management (IDEM), Office of Air Quality (OAQ) for an Interim Permit for the construction of a mill classifier with a packed bed scrubber as pollution control. Based on 8,760 hours per year of operation, potential emissions are as follows:
 Particulate Matter (PM) = 43.8 tons/year;
 Sulfur Dioxide (SO2) = 0 tons/year;
 Nitrogen Oxides (NOx) = 0 tons/year;
 Volatile Organic Compounds (VOC) = 0 tons/year;
 Hazardous Air Pollutants (HAPs) = 0 tons/year for single HAPs;
 0 tons/year for combined HAPs.
 PSD Minor Limit [326 IAC 2-2][40 CFR 52.21]
 This emission unit is required to limit the potential to emit of particulate matter (PM) to less than 25 tons per consecutive twelve (12) month period and particulate matter equal to or less than ten microns (PM10) to less than 15 tons per consecutive twelve (12) month period. Compliance

with this limit makes 326 2-2 (Prevention of Significant Deterioration) and 40 CFR 52.21 not applicable. NSWC Crane has submitted an application for a final significant source modification. The Office of Air Quality shall review the application in accordance with the Permit Review Rules (326 IAC 2-7-10.5). Operation of the source cannot commence until a valid operating permit is issued. The construction of the proposed project is entirely at NSWC Crane's own risk. Notice is hereby given that there will be a period of fourteen (14) days from the date of publication of this notice during which any interested person may comment on why this interim petition should or should not be issued. Appropriate comments should be related to any air quality issues; interpretation of the state and federal rules, calculations made, technical issues, or the effect that the operation of this unit would have on any aggrieved individuals. A copy of the application and petition to the IDEM, OAQ is available for examination at the Bedford Public Library, 401 1323 K St, Bedford, IN. All comments, along with supporting documentation, should be submitted in writing to the IDEM, OAQ, 100 North Senate Avenue, Mail Code 61-50, Indianapolis, Indiana 46204-2251. Persons not wishing to comment at this time, but wishing to receive notice of future proceedings conducted related to this action, must submit a written request to IDEM, OAQ, at the above address. All interested parties of record will receive a notice of the decision on this matter and will then have 15 days after receipt of the Notice of Decision to file a petition for administrative review. Procedures for filing such a petition will be enclosed with the Notice. Questions should be directed to IDEM, OAQ, 100 North Senate Avenue, Mail Code 61-50, Indianapolis, Indiana 46204-2251, or at (800)451-6027 (ask for extension 2-8217).

**INDIANA DEPARTMENT OF ENVIRONMENTAL MANAGEMENT
OFFICE OF AIR QUALITY**

PETITION FOR INTERIM SOURCE MODIFICATION

Source Name: Crane Division, Naval Surface Warfare Center (NSWC Crane)
Source Address: 300 Highway 361, Crane, Indiana 47522-5009
Mailing Address: Code PRCR4, Building 3260, 300 Highway 361, Crane, IN 47522
SIC Code: 9711

Description of the Operation or Equipment:

Mill-classifier, CRN-0126-02-17-W24, to be located in Building 126 using a water-packed bed scrubber as particulate control and exhausting to stack CRN-0126-02-17-W24-F.

Potential to Emit:

"Potential to emit" means the maximum capacity of a stationary source or emissions unit to emit any air pollutant under its physical and operational design. Any physical or operational limitation on the capacity of a source to emit an air pollutant, including air pollution control equipment and restrictions on hours of operation or type or amount of material combusted, stored, or processed, shall be treated as part of its design if the limitation is enforceable by the U.S. EPA, the department, or the appropriate local air pollution control agency. The term does not alter or affect the use of potential to emit for any other purpose under the CAA, (or "capacity factor" as used in Title IV of the CAA) or the regulations promulgated thereunder.

Potential to Emit for the paint booth	
Pollutant	tons per year
PM	0.06
PM10	0.06
SO2	0.00
NOx	0.00
VOC	0.00
CO	0.00
Lead	0.00
HAPs	0.00 (combined HAPs)

PM/PM10 Potential to Emit

See attached spreadsheet for the mill-classifier.

PSD Requirements:

The potential to emit, based on the inherent limitation of demand for product of the new operation, is less than PSD Significant threshold levels, therefore, PSD rules and requirements do not apply.

NSPS Requirements:

There are no applicable NSPS rules applicable to this operation or equipment.

NESHAP Requirements:

There are no applicable NESHAP rules applicable to this operation or equipment.

Therefore, NSWC Crane is not required to comply with this rule.

State Rules and Requirements:

Emissions Limitations and Standards [326 IAC 2-7-5(1)]

Opacity [326 IAC 5-1]

Pursuant to 326 IAC 5-1-2 (Opacity Limitations), except as provided in 326 IAC 5-1-3 (Temporary Alternative Opacity Limitations), opacity shall meet the following, unless otherwise stated in this permit:

- (a) Opacity shall not exceed an average of forty percent (40%) in any one (1) six (6) minute averaging period as determined in 326 IAC 5-1-4.
- (b) Opacity shall not exceed sixty percent (60%) for more than a cumulative total of fifteen (15) minutes (sixty (60) readings as measured according to 40 CFR 60, Appendix A, Method 9 or fifteen (15) one (1) minute nonoverlapping integrated averages for a continuous opacity monitor) in a six (6) hour period.

Particulate Matter (PM) [326 IAC 6-3-2]

Pursuant to 326 IAC 6-3-2 (Particulate Emission Limitations for Manufacturing Processes), the particulate matter (PM) from the mill-classifier shall not exceed 0.55 pounds per hour when operating at a process weight rate of 0.05 tons per hour.

The pounds per hour limitation was calculated with the following equation:

Interpolation and extrapolation of the data for the process weight rate up to sixty thousand (60,000) pounds per hour shall be accomplished by use of the equation:

$$E = 4.10 P^{0.67}$$

where E = rate of emission in pounds per hour
and
P = process weight rate in tons per hour

Preventive Maintenance Plan [326 IAC 2-7-5(13)]

A Preventive Maintenance Plan, in accordance with Section B - Preventive Maintenance Plan, of this permit, is required for this facility and its control device.

Compliance Determination Requirements

Particulate Matter (PM)

The wet scrubber used for PM control shall be operated at all times the mill-classifier is in use and the Permittee shall operate the control devices in accordance with manufacturer's specifications.

Compliance Monitoring Requirements [326 IAC 2-7-6(1)][326 IAC 2-7-5(1)]

Visible Emissions Notations

- (a) Visible emission notations of the wet scrubber stack exhaust from the mixing and pouring operations shall be performed once per day during normal daylight operations. A trained employee shall record whether emissions are normal or abnormal.
- (b) For processes operated continuously, "normal" means those conditions prevailing, or expected to prevail, eighty percent (80%) of the time the process is in operation, not counting startup or shut down time.
- (c) In the case of batch or discontinuous operations, readings shall be taken during that part of the operation that would normally be expected to cause the greatest emissions.

(d) A trained employee is an employee who has worked at the plant at least one (1) month and has been trained in the appearance and characteristics of normal visible emissions for that specific process.

(e) If abnormal emissions are observed, the Permittee shall take reasonable response steps in accordance with Section C - Response to Excursions or Exceedances. Failure to take response steps in accordance with Section C - Response to Excursions or Exceedances shall be considered a deviation from this permit.

Scrubber Operating Condition

(a) The Permittee shall monitor and record the pressure drop of the scrubber once per day. When for any one reading, the pressure drop across the scrubber is outside the normal range of [redacted] and [redacted] inches of water or a range established during the latest stack test, the Permittee shall take reasonable response steps in accordance with Section C - Response to Excursions or Exceedances. A pressure reading that is outside the above mentioned range is not a deviation from this permit. Failure to take response steps in accordance with Section C - Response to Excursions or Exceedances shall be considered a deviation from this permit. [redacted]

(b) The instrument used for determining the pressure shall comply with Section C - Instrument Specifications, of this permit, shall be subject to approval by IDEM, OAQ, and shall be calibrated at least once every six (6) months.

Record Keeping and Reporting Requirements [326 IAC 2-7-5(3)][326 IAC 2-7-19]

Record Keeping Requirements

(a) To document compliance, the Permittee shall maintain a daily record of visible emission notations of the wet scrubber stack exhaust from the mixing and pouring operations. The Permittee shall include in its daily record when a visible emission notation is not taken and the reason for the lack of a visible emission notation (e.g. the process did not operate that day).

(b) To document compliance, the Permittee shall maintain a daily record of the pressure drop across the scrubber controlling the mixing and pouring operations. The Permittee shall include in its daily record when a pressure drop reading is not taken and the reason for the lack of a pressure drop reading (e.g. the process did not operate that day).

(c) All records shall be maintained in accordance with Section C - General Record Keeping Requirements, of this permit.

Federal Enforceability:

NSWC Crane consents to the federal enforceability of this interim petition.

Interim Significant Permit Revision / Significant Source Modification Evaluation Sheet

Company Name:	NSWC Crane		
Location:	300 Highway 361, Crane, IN 47522	Permit No:	101-28903I-00005
Permit Reviewer:	Heath Hartley	Date Receipt of Application:	1/22/10
		Date of review:	
Description of the interim construction:	Addition of new particle mill/classifier unit		
Public Notice Period	=	2/18/2010	to 3/4/10
Public Notice Date + 3 days = 17 days =		3/7/10	

Interim Petition Applicability: 326 IAC 2-13-1

- (a) Existing Source with valid permit;
- (b) Exemptions:
 - (1) construction of a PSD source or PSD modification;
 - (2) construction or modification in nonattainment area that would emit those pollutants for which the nonattainment designation is based.
 - (3) any modification subject to 326 IAC 2-4.1.
- (c) Public notice comment period is 14 calendar days.

Instructions: Check (✓) appropriate answers and make a recommendation.

1. Did the applicant submit a written petition for an interim significant permit revision or significant source modification?

- Yes Go to question 2.
 No Ignore verbal request.

2. Did the applicant pay the applicable interim permit fee? \$625 for TV, FESOP, and SSOA. \$500 for MSOP.

- Yes Go to question 3.
 No Deny the application, pursuant to 326 IAC 2-13-1(c)(1).

Comments: _____

3. Did the applicant state acceptance of federal enforceability of an interim significant permit revision or significant source modification?

- Yes Go to question 4.
 No Deny the application, pursuant to 326 IAC 2-13-1(c)(2)(D).

4. Did the applicant or its authorized agent sign the application?

- Yes Go to question 5.
 No Deny the application, pursuant to 326 IAC 2-13-1(c)(2)(E).

5. Did the applicant submit a notarized affidavit stating that the applicant will proceed at its own risk (if the interim significant permit revision or significant source modification is issued), including, but not limited to:

- (a) Financial risk,
- (b) Risk that additional emission controls may be required,
- (c) Risk that the final significant permit revision or significant source modification may be denied.

- Yes Go to question 6.
- No Deny the application, pursuant to 326 IAC 2-13-1(c)(2)(F).

6. Did the applicant begin construction prior to submitting the interim significant permit revision or significant source modification application?

- Yes Deny the application, pursuant to 326 IAC 2-13-1(h)(6).
- No Go to question 7.

7. What is the type of the interim construction?

- New Source Deny the application, pursuant to 326 IAC 2-13-1(a)
- Modification to an existing source Go to question 8.

8. Did the applicant present data in the interim significant permit revision or significant source modification that is sufficient to determine PSD, NSPS, NESHAP, and state rule compliance?

- Yes Go to question 9.
- No Deny the application pursuant to:
326 IAC 2-13-1(c)(2)(B), for PSD;
326 IAC 2-13-1(c)(2)(C), for NSPS or NESHAP;
326 IAC 2-13-1(c)(2)(C), for state rules.

9. Is the proposed modification to be located in a nonattainment area?

- Yes Go to question 10.
- No Go to question 11.

County: _____ County

Comments: _____

10. Will the proposed modification emit the pollutant for which the area is nonattainment in quantities greater than the significant levels?

- Yes Deny the application, pursuant to 326 IAC 2-13-1(a)(2).
- No Go to question 11.

11. Did the petition include a complete description of the process?

- Yes Go to question 12.
- No Deny the petition, pursuant to 326 IAC 2-13-1(c)(2).

12. Did the interim significant permit revision or significant source modification petition contain conditions accepting either emission controls (baghouse, afterburners, scrubbers, etc.) or enforceable limits or other suitable restriction to avoid PSD applicability; as well as control parameters (incinerator operating temperature, baghouse pressure drop, etc.)? The specific limits must be explicitly spelled out (i.e.: The gas consumption of the boiler shall not exceed 29 million cubic feet per month.) A statement such as that the company agrees to conditions such that PSD rules are not applicable is not acceptable.

- Yes Go to question 13.
- No Deny the application, pursuant to 326 IAC 2-13-1(c)(2)(B).

13. Do the emission controls and/or throughput limits prevent PSD applicability?
 Yes Go to question 14.
 No Deny the application, pursuant to 326 IAC 2-13-1(c)(2)(B).
14. Will the modification, after application of all emission controls and/or throughput limitations comply with all applicable New Source Performance Standards (NSPS) (40 CFR 60)?
 Yes Go to question 15.
 No Deny the application, pursuant to 326 IAC 2-13-1(c)(2)(C).
15. Will the modification, after application of all emission controls and/or throughput limitations comply with all applicable National Emission Standards for Hazardous Air Pollutants (NESHAP)?
 Yes Go to question 16.
 No Deny the application, pursuant to 326 IAC 2-13-1(c)(2)(C).
16. Will the modification, after application of all emission controls and/or throughput limitations, comply with all applicable state rules?
 Yes Go to question 17.
 No Deny the application, pursuant to 326 IAC 2-13-1(c)(2)(C).
17. Does the applicant dispute applicability of any applicable state or federal rule?
 Yes Deny the application, pursuant to 326 IAC 2-13-1(c)(2)(C).
 No Go to question 18.
18. Is there good reason to believe that the applicant does not intend to construct in accordance with the interim significant permit revision or significant source modification petition?
 Yes Deny the application, pursuant to 326 IAC 2-13-1(h)(1).
 No Go to question 19.
19. Is there good reason to believe that information in the petition has been falsified?
 Yes Deny the application, pursuant to 326 IAC 2-13-1(h)(7).
 No Approve the interim significant permit revision or significant source modification petition.
20. Has the petition been adequately public noticed? A proof of publication copy is necessary.
 Yes Go to question 21.
 No Deny the application, pursuant to 326 IAC 2-13-1(e).
- Newspaper: Bedford Times
- Date of publication: 2/18/10
21. Were comments received within seventeen (17) days after the public notice of the interim significant permit revision or significant source modification?
(14 calendar days for comment period + 3 working days for mailing)
 Yes Evaluate the comments received, and make a recommendation.
 No Issue the final interim significant permit revision or significant source modification approval.
