RE: Courier Kendallville, Inc / 113-29548i-00021

FROM: Matthew Stuckey, Branch Chief
Permits Branch
Office of Air Quality

Notice of Decision: Approval - Effective Immediately

Please be advised that on behalf of the Commissioner of the Department of Environmental Management, I have issued a decision regarding the enclosed matter. Pursuant to IC 13-15-5-3, this permit is effective immediately, unless a petition for stay of effectiveness is filed and granted according to IC 13-15-6-3, and may be revoked or modified in accordance with the provisions of IC 13-15-7-1.

If you wish to challenge this decision, IC 4-21.5-3 and IC 13-15-6-1 require that you file a petition for administrative review. This petition may include a request for stay of effectiveness and must be submitted to the Office of Environmental Adjudication, 100 North Senate Avenue, Government Center North, Suite N 501E, Indianapolis, IN 46204, **within eighteen (18) calendar days of the mailing of this notice**. The filing of a petition for administrative review is complete on the earliest of the following dates that apply to the filing:

- (1) the date the document is delivered to the Office of Environmental Adjudication (OEA);
- (2) the date of the postmark on the envelope containing the document, if the document is mailed to OEA by U.S. mail; or
- (3) The date on which the document is deposited with a private carrier, as shown by receipt issued by the carrier, if the document is sent to the OEA by private carrier.

The petition must include facts demonstrating that you are either the applicant, a person aggrieved or adversely affected by the decision or otherwise entitled to review by law. Please identify the permit, decision, or other order for which you seek review by permit number, name of the applicant, location, date of this notice and all of the following:

- (1) the name and address of the person making the request;
- (2) the interest of the person making the request;
- (3) identification of any persons represented by the person making the request;
- (4) the reasons, with particularity, for the request;
- (5) the issues, with particularity, proposed for considerations at any hearing; and
- (6) identification of the terms and conditions which, in the judgment of the person making the request, would be appropriate in the case in question to satisfy the requirements of the law governing documents of the type issued by the Commissioner.

If you have technical questions regarding the enclosed documents, please contact the Office of Air Quality, Permits Branch at (317) 233-0178. Callers from within Indiana may call toll-free at 1-800-451-6027, ext. 3-0178.

Ms. Christine Bitner
Courier Kendallville, Inc.
2500 Marion Dr
Kendallville, Indiana 46755

October 13, 2010

Re: Interim Significant Permit Revision Petition Approval
113-29548I-00021

Dear Ms. Bitner:

On September 21, 2010, the Office of Air Quality (OAQ) received an interim Significant Permit Revision petition from Courier Kendallville, Inc., located at 2500 Marion Dr, in Kendallville, Indiana for construction of a one (1) heatset web offset lithographic printing press, identified as Lithoman 4.

A public notice of the interim Significant Permit Revision petition was published in Kendallville News-Sun on September 9, 2010. The public comment period ended on October 8, 2010.

The interim Significant Permit Revision petition may be revoked after its effective date upon a written finding by the Indiana Department of Environmental Management (IDEM) that any of the reasons for denial in 326 IAC 2-13-1(h) exist or if the final Significant Permit Revision permit is denied. The IDEM has reviewed this interim Significant Permit Revision petition and has not found any such reason. The facilities specified in the interim Significant Permit Revision petition may not operate until the final Significant Permit Revision permit is issued by OAQ.

The interim Significant Permit Revision petition is federally enforceable. Detailed construction and operation conditions will be specified in the final Significant Permit Revision permit 113-29548-00021.

If you have any questions regarding this interim Significant Permit Revision petition, please contact Marcia Earl, OAQ, 100 North Senate Avenue, MC 61-53, Room 1003, Indianapolis, Indiana, 46204-2251, or call at (800) 451-6027, and ask for Marcia Earl or extension 3-0863, or dial (317) 233-0863.

Sincerely,

Alfred C. Dumauval, Ph. D., Section Chief
Permits Branch
Office of Air Quality

Affidavit of Construction

I, _____, being duly sworn upon my oath, depose and say:
(Name of the Authorized Representative)

1. I live in _____ County, Indiana and being of sound mind and over twenty-one (21) years of age, I am competent to give this affidavit.
2. I hold the position of _____ for _____.
(Title) (Company Name)
3. By virtue of my position with _____, I have personal
(Company Name)
knowledge of the representations contained in this affidavit and am authorized to make these representations on behalf of _____.
(Company Name)
4. I, the undersigned, have submitted an interim significant permit revision, petition to the Office of Air Quality for the construction of _____.
5. _____ recognizes the following risks:
(Company Name)
(a) own financial risk, (b) that IDEM may require additional or different control technology for the final approval, (c) that IDEM may deny issuance of the final approval, and
(d) any additional air permitting requirements.

Further Affiant said not.

I affirm under penalties of perjury that the representations contained in this affidavit are true, to the best of my information and belief.

Re: *Petition for Interim Significant Permit Revision*
FESOP Number: 113-25716-00021

Dear Sir or Madam:

With this Petition, Courier Kendallville, Inc. (Courier) seeks an Interim Permit for a Significant Permit Revision to FESOP Number: F113-25716-00021.

Source Name: Courier Kendallville, Inc.
Source Address: 2500 Marion Drive, Kendallville, IN 46755
Mailing Address: 2500 Marion Drive, Kendallville, IN 46755
SIC/NAICS Code: 2752/323110

DESCRIPTION OF THE OPERATION OR EQUIPMENT:

Printing Operation

Courier utilizes the offset lithographic printing process to manufacture individual printed pages. The internal pages of the book are printed via heatset web offset lithography, which is an evaporated dying process. After the ink has been applied to the substrate or web, the printed web paper is directed through a dryer. The dryer, in this case, is an integrated dryer and oxidizer.

Equipment

Installation an additional heatset web offset lithographic printing press (Man Roland Lithoman) with an integrated dryer and oxidizer (Megtec Dual-Dry TNV). The exhaust from the Man Roland Lithoman is released directly from the "dryer" into the integrated oxidizer.

Printing Press Specifications:

PRINTING PRESS IDENTIFICATION	NUMBER OF PRINT UNITS	MAXIMUM LINE SPEED (FT/MIN)	MAXIMUM PRINTING WIDTH (INCHES)	MAXIMUM INK COVERAGE CAPACITY (LBS/MMIN ²)
New Man Roland Lithoman 4	4	2844	56.5	4.0

Notes: Maximum coverage capacity is in units of pounds per million square inches

Integrated Dryer & Oxidizer Specifications:

Volatile Organic Compound (VOC) Destruction Efficiency: 99%

POTENTIAL TO EMIT:

The VOC emissions are as follows:

Potential Uncontrolled VOC Emissions:	588.14 Tons Per Year*
Potential Controlled VOC Emissions:	67.23 Tons Per Year*
Projected Actual Uncontrolled VOC Emissions:	47.7 Tons Per Year*
Projected Actual Controlled VOC Emissions:	6.24 Tons Per Year*

Courier wants to retain its current status as a FESOP facility and is seeking a limit to keep its total VOC emissions below 100 tons/year.

* Detailed emissions calculations are on the attached spreadsheets.

PSD REQUIREMENTS:

The installation of the new Man Roland Lithoman printing press with the Megtec Dual-Dry TNV integrated dryer and oxidizer will not qualify as a major PSD source or major PSD modification as the installation process does not involve the emission of any Volatile Organic Compounds.

NSPS REQUIREMENTS:

There is no applicable NSPS rule applicable to this operation or equipment.

NESHAP REQUIREMENTS:

There is no applicable NSPS rule applicable to this operation or equipment.

STATE RULES & REQUIRMENTS:

FESOP Limits: Pursuant to 326 IAC 2-8-4

(a) VOC emissions from the printing presses, identified as Mark 16, the printing press, identified as M850, the printing press, identified as Lithoman, the printing press, identified as Lithoman 2, the printing press identified as Lithoman 3, the printing press, identified as Mark 6 (listed in Section D.2), the printing press, identified as M130 (listed in Section D.2), and the printing press, identified as Heidelberg Sheetfed Press (listed in Section D.2), the printing press identified as Lithoman 4 shall be limited to less than a total of 97.5 tons per tons per twelve (12) consecutive month period, with compliance determined at the end of each month. The VOC emissions calculated shall be the sum of each individual printing press. Either thermal oxidizer Cleanswitch or Cleanswitch 2 will operated at any one (1) time. Compliance with this limit will be demonstrated by using the following equation:

Presses with thermal oxidizer

$$E_n = U_n \times V_n \times F \times \{1 - (C_n/100) \times (D_n/100)\}$$

Presses without thermal oxidizer

$$E_n = U_n \times V_n \times F$$

Total VOC Emissions from all presses

$$E_t = E(\text{Lithoman}) + E(\text{Lithoman 2}) + E(\text{Lithoman 3}) + E(\text{Mark 6}) + E(\text{M130}) + E(\text{Heidelberg}) + E(\text{Lithoman 4})$$

Where:

Et = VOC emissions from all presses
En = VOC emissions from each press
Un = Total usage of each material from each press
Vn = VOC content of each material from each press
F = Flash off factor of each material from each press
Cn = Capture efficiency for each thermal oxidizer from each press
Dn = Destruction efficiency for each oxidizer from each press (Oxidizer control efficiency)

(b) The single HAP and combination of HAPs emissions from the heat set web offset lithographic printing presses, identified as Lithoman 4, Lithoman 3, Mark 6, Mark 16, M130, M850, Lithoman, Lithoman 2, and the Heidelberg Sheetfed Press shall be limited to a total of less than 8.7 tons and 23.7 tons, respectively, per twelve (12) consecutive month period with compliance determined at the end of each month. The HAP emissions calculated shall be the sum of each individual printing press. Either thermal oxidizer Cleanswitch or Cleanswitch 2 will operated at any one (1) time. Compliance with these limits shall be demonstrated by using the following equation:

Presses with thermal oxidizer

$$E_n = U_n \times H_n \times F \times \{1 - (C_n/100) \times (D_n/100)\}$$

Presses without thermal oxidizer

$$E_n = U_n \times H_n \times F$$

Total HAP Emissions from all presses

$$E_t = E(\text{Lithoman}) + E(\text{Lithoman 2}) + E(\text{Lithoman 3}) + E(\text{Mark 6}) + E(\text{M130}) + E(\text{Heidelberg}) + E(\text{Lithoman 4})$$

Where:

Et = HAP emissions from all presses

En = HAP emissions from all presses

Un = Total usage of each material from all presses

Hn = Worst Case single HAP content of each material for single HAP and Total HAP content of each material for total HAPs from all presses

F = Flash off factor of each material from all presses

Cn = Capture efficiency for each thermal oxidizer from each press

Dn = Destruction efficiency for each thermal oxidizer from each press (Oxidizer control efficiency)

Process Operations: Pursuant to 326 IAC 6-3-2(c), the printing presses are not subject to this rule since there are no particulate emissions emitted from the printing presses.

Opacity: Pursuant to 326 IAC 5-1-2 (Visible Emissions Limitations), except as provided in 326 IAC 5-1-3 (Temporary Exceptions), the visible emissions shall meet the following:

- (a) Visible emissions shall not exceed an average of forty percent (40%) opacity in twenty-four (24) consecutive readings.
- (b) Visible emissions shall not exceed sixty percent (60%) opacity for more than a cumulative total of fifteen (15) minutes (sixty (60) readings) in a six (6) hour period.

Emission Reporting: Pursuant to 326 IAC 2-6 the source is subject to emission reporting because it has the potential to emit more than 100 tons per year of VOCs. Pursuant to this rule, the owner or operator must annually submit an emission statement for this source by July 1 of each year. The submittal should contain the minimum requirement specified in 326 IAC 2-6-4 and should cover the period defined in 326 IAC 2-6-2(8).

Volatile Organic Compounds. Pursuant to 326 8-1-6, the Best Available Control technology (BACT) for the one (1) heat set web offset lithographic printing press, identified as Lithoman 4, has determined to be as follows:

- (1) The exhaust shall be vented to the one (1) integrated recuperative thermal oxidizer, identified as TNV 1, with a minimum of 98% destruction efficiency for VOC as demonstrated by achieving a VOC outlet concentration of 20ppmv or less as hexane, minus methane and ethane;
- (2) The VOC content of the fountain solution shall be no greater than 3% VOC as applied;
- (3) The blanket and roller washes shall have a vapor pressure no greater than 10 mm Hg at 20°C or the VOC content shall be limited to 2.5 lbs/gal as applied; and
- (4) The capture efficiencies used for reporting compliance shall be as follows and are based on the US EPA's "Alternative Control Techniques Document: Offset Lithographic Printing" (EPA 453/R-94-054, June 94) and "Control Techniques Guideline For Control of Volatile Organic Compound Emissions from Offset Lithographic Printing" (EPA September 93):
 - (A) 100 percent capture, by weight, of the VOC in press ready inks;
 - (B) 70 percent capture, by weight, of the VOC in press ready fountain solutions; and
 - (C) 40 percent capture, by weight, of the VOC in press ready automatic cleaning solvents.

Air Toxic Emissions. Pursuant to 326 2-1-3.4 (New Source Toxic Controls), the printing press is not subject to this rule since the printing press emits less than 10 TPY of a single HAP and less than 25 TPY of a combination of HAPs.

Stack Height: Pursuant to 326 IAC 1-7, the printing press is not subject to this rule since the printing press does not directly emit particulate matter or sulfur dioxide.

Fugitive Dust: Pursuant to 326 IAC 6-4, the source is subject to this rule. Fugitive dust shall not be visible crossing the boundary or property line of the source. Observances of visible emissions crossing the property lines may be refuted by factual data expressed in 326 IAC 6-4-2 (1), (2), or (3).

Preventative Maintenance Plan: Pursuant to 326 IAC 2-8-5, a preventative maintenance plan (PMP) is required for this facility and any control devices.

Compliance Determination Requirements: Testing Requirements: Testing of this facility is not specifically required by an applicable rule. However, if testing is required, compliance shall be determined by a performance test conducted in accordance with 326 IAC 3-2.1. This does not preclude testing requirements on this facility under 326 IAC 2-8-5.

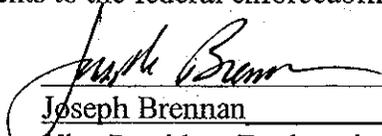

Compliance Monitoring Requirements: Pursuant to 326 IAC 2-9-5, Courier will monitor and record the temperature of the combustion chamber during operation of the process.

Record Keeping and Reporting Requirements: The source is subject to record keeping and reporting requirements codified in 326 IAC 2-8-5(3). All records shall be maintained in accordance with 326 IAC 2-8-5.

FEDERAL ENFORCEABILITY:

The company consents to the federal enforceability of this interim petition.

**NOTICE OF 14-DAY PERIOD
FOR PUBLIC COMMENT**

Proposed Approval of Interim Significant Permit Revision/Significant Source Modification
for **Courier Kendallville, Inc.**
in **Noble**

Notice is hereby given that the above company located at 2500 Marion Drive, Kendallville, Indiana, has made application to the Indiana Department of Environmental Management (IDEM), Office of Air Quality (OAQ) for an interim permit to construct a heatset web offset lithographic press with an integrated oxidizer & dryer as air pollution control. Based on 8,760 hours per year of operation, the VOC emissions are 588.14 tons per year, respectively.

The company has submitted an application for a significant permit revision / significant source modification. The OAQ shall review the application in accordance with the Permit Review Rules. Operation of the source cannot commence until a valid operating permit is issued. The construction of the proposed project is entirely at the applicant's own risk.

Notice is hereby given that there will be a period of 14 days from the date of publication of this notice during which any interested person may comment on why this interim permit should or should not be issued. Appropriate comments should be related to air quality issues, interpretation of the applicable state and federal rules, calculations made, technical issues, or the effect that the operation of this facility would have on any aggrieved individuals. A copy of the application and staff review is available for examination at the **Kendallville Public Library, 126 Rush Street, Indiana, 46755**. All comments, along with supporting documentation, should be submitted in writing to the IDEM, OAQ, 100 North Senate Avenue, MC 61-53, Room 1003, Indianapolis, Indiana, 46204-2251.

Persons not wishing to comment at this time, but wishing to receive notice of future proceedings conducted related to this action, must submit a written request to the Office of Air Quality (OAQ), at the above address. All interested parties of record will receive a notice of the decision on this matter and will then have 15 days after receipt of the Notice of Decision to file a petition for administrative review. Procedures for filing such a petition will be enclosed with the Notice.

Questions should be directed to OAQ, 100 North Senate Avenue, MC 61-53, Room 1003, Indianapolis, Indiana, 46204-2251, or call (800) 451-6027 or (317) 233-0178.

Interim Significant Permit Revision / Significant Source Modification Evaluation Sheet

Company Name: <i>Courier Kendallville, Inc.</i>	
Location: <i>2500 Marion Drive, Kendallville, IN 46755</i>	Permit No: <i>000-000001-00000</i>
Permit Reviewer:	Date Receipt of Application:
	Date of review:
Description of the Interim construction:	
Public Notice Period = to	
Public Notice Date + 3 days = <i>17 days</i> =	

Interim Petition Applicability: 326 IAC 2-13-1

- (a) Existing Source with valid permit;
- (b) Exemptions:
 - (1) construction of a PSD source or PSD modification;
 - (2) construction or modification in nonattainment area that would emit those pollutants for which the nonattainment designation is based.
 - (3) any modification subject to 326 IAC 2-4.1.
- (c) Public notice comment period is 14 calendar days.

Instructions: Check (✓) appropriate answers and make a recommendation.

1. Did the applicant submit a written petition for an interim significant permit revision or significant source modification?
 - Yes Go to question 2.
 - No Ignore verbal request.

2. Did the applicant pay the applicable interim permit fee? \$625 for TV, FESOP, and SSOA. \$500 for MSOP.
 - Yes Go to question 3.
 - No Deny the application, pursuant to 326 IAC 2-13-1(c)(1).

Comments: _____

3. Did the applicant state acceptance of federal enforceability of an interim significant permit revision or significant source modification?
 - Yes Go to question 4.
 - No Deny the application, pursuant to 326 IAC 2-13-1(c)(2)(D).

4. Did the applicant or its authorized agent sign the application?
 - Yes Go to question 5.
 - No Deny the application, pursuant to 326 IAC 2-13-1(c)(2)(E).

5. Did the applicant submit a notarized affidavit stating that the applicant will proceed at its own risk (if the interim significant permit revision or significant source modification is issued), including, but not limited to:
- (a) Financial risk,
 - (b) Risk that additional emission controls may be required,
 - (c) Risk that the final significant permit revision or significant source modification may be denied.
- Yes Go to question 6.
 No Deny the application, pursuant to 326 IAC 2-13-1(c)(2)(F).

6. Did the applicant begin construction prior to submitting the interim significant permit revision or significant source modification application?
- Yes Deny the application, pursuant to 326 IAC 2-13-1(h)(6).
 No Go to question 7.

7. What is the type of the interim construction?
- New Source Deny the application, pursuant to 326 IAC 2-13-1(a)
 Modification to an existing source Go to question 8.

8. Did the applicant present data in the interim significant permit revision or significant source modification that is sufficient to determine PSD, NSPS, NESHAP, and state rule compliance?
- Yes Go to question 9.
 No Deny the application pursuant to:
326 IAC 2-13-1(c)(2)(B), for PSD;
326 IAC 2-13-1(c)(2)(C), for NSPS or NESHAP;
326 IAC 2-13-1(c)(2)(C), for state rules.

9. Is the proposed modification to be located in a nonattainment area?
- Yes Go to question 10.
 No Go to question 11.

County: Noble County

Comments: _____

10. Will the proposed modification emit the pollutant for which the area is nonattainment in quantities greater than the significant levels?
- Yes Deny the application, pursuant to 326 IAC 2-13-1(a)(2).
 No Go to question 11.

11. Did the petition include a complete description of the process?
- Yes Go to question 12.
 No Deny the petition, pursuant to 326 IAC 2-13-1(c)(2).

12. Did the interim significant permit revision or significant source modification petition contain conditions accepting either emission controls (baghouse, afterburners, scrubbers, etc.) or enforceable limits or other suitable restriction to avoid PSD applicability; as well as control parameters (incinerator operating temperature, baghouse pressure drop, etc.)? The specific limits must be explicitly spelled out (i.e.: The gas consumption of the boiler shall not exceed 29 million cubic feet per month.) A statement such as that the company agrees to conditions such that PSD rules are not applicable is not acceptable.
- Yes Go to question 13.
 No Deny the application, pursuant to 326 IAC 2-13-1(c)(2)(B).

13. Do the emission controls and/or throughput limits prevent PSD applicability?
 Yes Go to question 14.
 No Deny the application, pursuant to 326 IAC 2-13-1(c)(2)(B).
14. Will the modification, after application of all emission controls and/or throughput limitations comply with all applicable New Source Performance Standards (NSPS) (40 CFR 60)?
 Yes Go to question 15.
 No Deny the application, pursuant to 326 IAC 2-13-1(c)(2)(C).
15. Will the modification, after application of all emission controls and/or throughput limitations comply with all applicable National Emission Standards for Hazardous Air Pollutants (NESHAP)?
 Yes Go to question 16.
 No Deny the application, pursuant to 326 IAC 2-13-1(c)(2)(C).
16. Will the modification, after application of all emission controls and/or throughput limitations, comply with all applicable state rules?
 Yes Go to question 17.
 No Deny the application, pursuant to 326 IAC 2-13-1(c)(2)(C).
17. Does the applicant dispute applicability of any applicable state or federal rule?
 Yes Deny the application, pursuant to 326 IAC 2-13-1(c)(2)(C).
 No Go to question 18.
18. Is there good reason to believe that the applicant does not intend to construct in accordance with the interim significant permit revision or significant source modification petition?
 Yes Deny the application, pursuant to 326 IAC 2-13-1(h)(1).
 No Go to question 19.
19. Is there good reason to believe that information in the petition has been falsified?
 Yes Deny the application, pursuant to 326 IAC 2-13-1(h)(7).
 No Approve the interim significant permit revision or significant source modification petition.
20. Has the petition been adequately public noticed? A proof of publication copy is necessary.
 Yes Go to question 21.
 No Deny the application, pursuant to 326 IAC 2-13-1(e).

Newspaper: _____

Date of publication: _____

21. Were comments received within seventeen (17) days after the public notice of the interim significant permit revision or significant source modification?
(14 calendar days for comment period + 3 working days for mailing)
 Yes Evaluate the comments received, and make a recommendation.
 No Issue the final interim significant permit revision or significant source modification approval.

September, 2010
My commission expires May 21, 2018

NOTICE OF 14-DAY PERIOD
FOR PUBLIC COMMENT
PROPOSED APPROVAL OF
INTERIM SIGNIFICANT PERMIT
REVISION/SIGNIFICANT SOURCE
MODIFICATION FOR COURIER
KENDALLVILLE, INC. IN NOBLE

Notice is hereby given that the above company located at 2500 Marion Drive, Kendallville, Indiana, has made application to the Indiana Department of Environmental Management (IDEM), Office of Air Quality (OAQ) for an interim permit to construct a heatset web offset lithographic press with an integrated oxidizer & dryer as air pollution control. Based on 8,760 hours per year of operation, the VOC emissions are 588.14 tons per year, respectively.

The company has submitted an application for a significant permit revision / significant source modification. The OAQ staff reviewed the application in accordance with the Permit Review Rules. Operation of the source cannot commence until a valid operating permit is issued. The construction of the proposed project is entirely at the applicant's own risk.

KPC MEDIA GROUP

Notice is hereby given that there will be a period of 14 days from the date of publication of this notice during which any interested person may comment on why this interim permit should or should not be issued. Appropriate comments should be related to air quality issues, interpretation of the applicable state and federal rules, calculations made, technical issues, or the effect that the operation of this facility would have on any aggrieved individuals. A copy of the application and staff review is available for examination at the Kendallville Public Library, 126 Flush Street, Indiana, 46755. All comments, along with supporting documentation, should be submitted in writing to the IDEM, OAQ, 100 North Senate Avenue, MC 61-53, Room 1003, Indianapolis, Indiana, 46204-2251.

12603477281

Persons not wishing to comment at this time, but wishing to receive notice of future proceedings conducted related to this action, must submit a written request to the Office of Air Quality (OAQ), at the above address.

09/28/2010

All interested parties of record will receive a notice of the decision on this matter and will then have 15 days after receipt of the Notice of Decision to file a petition for administrative review. Procedures for filing such a petition will be enclosed with the Notice. Questions should be directed to OAQ, 100 North Senate Avenue, MC 61-53, Room 1003, Indianapolis, Indiana, 46204-2251, or call (800) 451-6027 or (317) 233-0178.
